

# JAPAN YIELDS TO U. S. PROPOSAL ON RATIO OF FLEETS

Diplomatic Advisory Council Approves "5-5-3" Plan; 3 Chinese Bolt.

(Continued from Page 1)

brought to completion out of the present conference is not an "alliance" or "entente," it was said, but a series of treaties or notes, confirming the decisions that are reached here, all of which will be submitted to the United States Senate for approval or ratification. It has been suggested and the and to which all the nine powers here, including China herself, would be signatory.

3.—A treaty between the United States and Japan concerning the island of Yap alone.

4.—A treaty between Japan and China concerning Shantung alone.

5.—A publication of declarations of principles governing the Pacific, by the United States, Great Britain and Japan.

American delegation is now considering:

1.—A treaty governing the limitation of naval armament, to which the five big powers, America, Great Britain, France, Japan and Italy, would be signatory.

2.—A treaty concerning China, based on the four principles which were written by Elihu Root.

WASHINGTON, Dec. 6.—The

# LOST: MOSSWOOD COMMITTEE OF TRACT OWNERS

Commissioner Frank Colbourn is seeking today members of a committee of property owners of the Mosswood Park tract. Colbourn has been sent several letters from the committee concerning a proposed dog and cat hospital which they object to in their neighborhood, but he says he cannot find either the committee or the proposed hospital.

The committee is apparently earnest and real enough, but I can find no trace of them," said Colbourn today. "They allege, with much heat, that a store and garage to be erected at Thirty-eighth and Broadway will in reality house the dog and cat hospital, which they object to. I believe the dog and cat hospital, home also object to the proposed garage and store to be used for such a hospital. If it is, we can stop it as a public nuisance. There are plenty of remedies."

The Mosswood committee signs its communications by the organization name, per A. J. Stitt. It says its members "live with alarm" the location of this unsightly and unnecessary business. In their midst, and fear that "by some decision" the dog and cat hospital may become a permanent institution.

Several petitions have already been received by the city council from Fabiola and the King's Daughters' Home.

Sei-Yuu party of Japan, the incumbent political faction, has received a report from its political affairs committee favoring the 70 per cent ratio insisted upon here by Japanese naval experts, the Japanese delegation was advised today. If this report is accepted, Japanese possessors said, it will mark a signal victory for those Japanese who are opposing the Hughes 5-5-3 naval ratio.

# THEATER OWNER EXPLAINS WIFE'S IGNORING COURT

SAN FRANCISCO, Dec. 6.—Louis R. Lurie, widely known theatrical man, who is identified actively with two large playhouses in San Francisco, is to come to San Francisco and confer with Judge William J. Gannon in connection with Mrs. Lurie's failure to appear in court, following her arrest on November 4 for violating the speed ordinance. According to Judge Gannon, this assurance was conveyed during a telephone conversation with the court.

Judge Gannon issued a citation against Mrs. Lurie on November 14. Notification sent to her after that date, it is charged, failed to elicit any response and the warrant followed.

According to Judge Gannon, Lurie said he has been ill and was prevented from giving the notice his earlier attention, and that he had assumed "it would be all right" because the judge has been "so courteous and pleasant" in the matter.

At the time of her arrest Mrs. Lurie was accompanied by a companion who identified himself as a traffic officer. He protested at the arrest but made no effort to block it.

The following fines were imposed yesterday by Judge Gannon for violations of the motor vehicle ordinance: Joaquin Braga, Tony Perry, San Francisco, \$5; A. L. Oliver, Berkeley, \$25; Miss R. E. McLaughlin, 5505 North Avenue, Oakland, \$25; W. H. McCall, 429 Oakland Avenue, Oakland, \$15; E. Gansberger, Palmdale, \$5.

RETIRED COMMODORE DIES.

HARTFORD, Conn., Dec. 6.—Commodore P. B. Burdick, 69, U. S. N., retired, who retired in 1909 but returned for active service during the world war, died in New Italy, according to a telegram received here by friends.

# SINN FEIN AND GREAT BRITAIN AGREE ON PEACE

Settlement to Be Approved by Parliament Provides Free State.

(Continued from Page 1)

power of decision without hampering her by conditions.

It is also understood that an agreement satisfactory to the Sinn Fein was reached regarding control of Irish ports by navy.

The agreement was signed for the government by Prime Minister Lloyd George, Austen Chamberlain, Lord Birkenhead and Winston Spencer Churchill, and for the Sinn Fein by Arthur Griffith, Michael Collins and Robert C. Boran.

The condition previously insisted upon that there must be free trade between England and Ireland is said to have been dropped by the government, and Ireland is given freedom of regulating tariffs. The delegates of the Dail Eireann, however, expected that it would be Ireland's advantage to have free trade between the two islands, and that she would adopt this voluntarily.

BY INTERNATIONAL NEWS SERVICE LEASED WIRE TO TRIBUNE.

DUBLIN, Dec. 6.—Release within a few days of 4000 Sinn Fein men interned in British detention camps as a result of the Irish peace agreement, was expected today.

The agreement may not be submitted to Dail Eireann for ratification until next week.

P. J. Duggan, one of the Sinn Fein delegates, and Desmond Fitzgerald, official press representative of the Sinn Fein delegates, are expected here this evening with a copy of the agreement for Eamonn de Valera.

IRELAND TO PAY DEBT SHARE OF WAR DEBT.

BIRMINGHAM, England, Dec. 6.—A British dominion to be known as the Irish Free State was born today, Lord Birkenhead, a member of the British delegation, announced in a speech here today.

"In matters of finance, Ireland is the supreme master in her own house, but she has agreed to her share of the war debt," declared Lord Birkenhead.

If Ulster does not wish to join the free states, she may retain her own status, the chancellor declared. In that case she will submit to the ruling of a boundary commission, which will determine the boundary line between the Irish Free State and Ulster.

If parliament does not sanction these terms, Birkenhead predicted the government would go before the people on the issue and submit to a general election.

WITNESSES NEW PHASE IN BRITISH HISTORY.

The terms of the agreement in the same room in Downing street that witnessed the loss of the American colonies," Birkenhead said. "It was also in this room that the decision to enter the war was made. Now it has witnessed a new phase of British history.

"If Ulster decides to stay out of this agreement, there will be a rectification of her frontier, necessary to prevent friction. She has been advised to join, but if she prefers she can retain her present status.

"These terms were fully satisfactory to representatives of the admiralty and the Irish Free State.

"It is unfair not to treat Ireland as one of the most powerful dominions which has come into existence in the last 250 years.

"Ireland was the parent state, which hung as a shadow over every quarter of the civilized world.

Birkenhead said Ireland recognized the fairness of paying a proportion of the national debt and the war expenditures. The amount will be decided by arbitrators, probably by a colonial judge, he said.

POPE EXPRESSES HIS SATISFACTION.

WASHINGTON, Dec. 6.—(By the Associated Press.)—Pope Benedict, a message from Rome today said, expressed great satisfaction on learning that an agreement had been reached by the British and Sinn Fein delegates according to a basis for settlement of the Irish question.

# AVIATORS WARNED OF PENALTIES IF LAW DISREGARDED

Arrest Will Follow Repetition of Last Sunday's Stunt-Flying, State Says.

(Continued from Page 1)

BERKELEY, Dec. 6.—Any further aerial exhibitions such as were held last Sunday at Durant field and at the Marina in San Francisco will result in the arrest of aviators and airplane owners, according to a warning today from the state aviation board.

The warning comes as the result of an announcement from Sacramento that a policy of stringent enforcement of aviation laws passed by the last legislature will be carried out. Active cooperation has been promised by the Allied Fliers' club, composed of former army aviators of the bay section.

Those aviators who indulged in the stunting at Durant field were notified in advance that the law required registration of the pilots and registration of the airplanes," stated Harvey M. Ford, president of the Allied Fliers' club and member of the state aviation board, "but apparently no effort was made by those pilots lacking licenses to obtain them. Because the exhibition in a sense was for charity, no arrest were made, so the spectators were not disappointed.

"The time for such consideration, however, has now passed. In the future, according to word received from Charles Chene, the law requiring registration of pilots and ships will be enforced."

"The state aviation law will suffer suspension of their licenses, or complete loss of such licenses. The law distinctly prohibits 'stunting,' as trick flying is known, at low altitudes. It also prohibits flying above congested areas.

"The aviator who indulges in wing-walking or other sensational feats not called for in straight aviation work sooner or later will come to a sudden death. The public, unfamiliar with the situation, cannot be expected to distinguish between the avoidable and unavoidable accidents, and will credit such foolhardy accidents against aviation."

# Dispute Over Withdrawal Of Women Voters Revived

Rumors that an attempt will be made to revive the issue as to whether Oakland Center, California Civic League of Women Voters, shall retain its membership in the Women's Legislative Council of California, are revived today. The storm which was believed to have been settled yesterday with the acceptance of the resignation of Mrs. O. E. Chaney, a director and chairman of the program committee, by the executive board, which Mrs. F. H. Boren is chairman, is scheduled to break forth again when the question will be raised at a meeting of the general membership in Ashland Temple on Friday afternoon.

Mrs. Chaney was formally asked to reconsider. This she refused to do. The executive board in finally taking action expressed its regret, thanked her for the "excellent work" she accomplished during incumbency, and expressed "its full and complete confidence in the work and policies of the center during the present administration."

The severance of Mrs. Chaney's relations with the board of directors, according to her formal letter, was based on events which finally led to withdrawal of the center from membership in the Women's Legislative Council last month. On motion of Mrs. C. E. Williams, the executive board in September unanimously voted to renew membership in the council for a year, according to her charges. Mrs. Boren declared to have added by this stand before the state board of the California Civic League of Women Voters and to have sponsored an amendment to the constitution of that organization which would permit such affiliation with the council. The letter charges that without consultation with her board, Mrs. Boren on November 25 left the

# NEXT ARBUCKLE TRIAL WILL BE BRIEF ONE, M'NAB

Both Sides Are Preparing for Case, Which Is Set for January 9.

By M. D. TRACY.

SAN FRANCISCO, Dec. 6.—"We are getting ready now for the second trial of Roscoe Arbuckle," District Attorney Matthew Brady said today. "We certainly expect to go to trial again," declared Gavin McNab, chief defense counsel. "The next trial will be shorter."

Tentative date for new hearing is January 9. Arbuckle, meanwhile, has gone to Los Angeles. Charges of violating the prohibition law, pending in the United States commissioner's court, have been continued until after the manslaughter case is finished.

ARBUCKLE AT HOME.

LOS ANGELES, Dec. 6.—Roscoe ("Fatty") Arbuckle came home from San Francisco with his wife today to enjoy what he said he hoped would be a "good rest."

When asked regarding his plans for the future, he said to the International News Service representative: "I have absolutely no plans at the present time. I feel that I was really vindicated by the jury."

A few women relatives and newspapermen greeted Arbuckle and his wife as they walked from the station to their automobile. No film celebrities were present and there was no ovation of any kind.

SAN FRANCISCO OAKLAND

Indicted Governor Scores Grand Jury

BY UNITED PRESS LEASED WIRE TO TRIBUNE.

WALKER, Ill., Dec. 6.—Governor Len Small today continued his attack on the grand jury that charged him with embezzling State funds and demanded that the indictments be killed.

Through his attorney, the governor declared that the grand jury's charges were inspired by his political enemies, who, he said, conducted a campaign of hate against him in the public prints of Illinois.

Indications were that the trial of the governor would not start until after the first of the year.

The first steampers required so much coal that there was little room for freight.

Bench Warrant Issued For Sentence Dodger

FAIRFIELD, Dec. 6.—A bench warrant for G. Caderasso of Suisun Valley has been issued by the superior court of W. T. O'Donnell for his arrest and the bail bond of A. Caderasso and G. B. Caderasso forfeited in amount of \$1000.

Caderasso pleaded guilty last Monday to a charge of selling wine to a minor and was sentenced to pay a fine of \$500 and serve one year in the county jail.

Caderasso made a motion at the hearing to be granted probation and the matter was set for Monday.

Petitions and resolutions were circulated by the Parent-Teachers Association, boards of trustees of all schools, boards of trustees of Suisun and Fairfield, W. C. T. U., and by several private individuals asking the court to deny probation.

Caderasso failed to appear when his case was called by the court.

Parent-Teachers to Complete Fair Plans

A special meeting of members of the Fremont High School Parent-Teacher association is called for tomorrow afternoon in the Little Theater of the school. Final plans for participation in the "country fair" parade on Saturday morning and the "country fair" opening Monday night in the municipal auditorium under the direction of the Oakland Federation of Mothers' Clubs, will be completed.

Flynn Turns Over Office to McLaughlin

Colonel John L. Flynn, for the past year acting collector of internal revenue, has turned over his office in San Francisco to John P. McLaughlin. During the past four years Flynn has collected for the government over \$300,000,000 in revenue taxes. He will become a federal tax consultant.

## OAKLAND WOMAN ARRESTED AFTER EXTENDED CHASE

Mrs. Colden, Accused of Kidnaping Child, Caught in San Diego.

SAN FRANCISCO, Dec. 6.—Mrs. Maud Colden, formerly of 242 Maple street, was arrested today in San Diego on the charge of kidnaping. The capture is said to have followed a nation-wide chase, during which Mrs. Colden was once overtaken by the police at New Orleans and later located in other states, only to make her escape on every occasion.

She is accused of stealing a 6-year-old Vera Cokalo, the daughter of the Rev. James Cokalo of 1584 Treat avenue. The alleged kidnaping occurred on June 28 and Mrs. Colden has ever since been a fugitive from justice.

According to the story told by Dr. Cokalo, he gave the little girl into the custody of Mrs. Colden when her mother died. The woman took the child on an extended trip, which included the Hawaiian Islands, and on her return she decided to take her away from Mrs. Colden. She protested that she loved the little child as her own, but nevertheless the clergyman removed her from the home of Mrs. W. H. Van Pelt of 582 Vienna street.

There, on the night of June 28, Mrs. Colden appeared. It is charged, asking to be allowed to take little Vera to the movies. She removed the child in an automobile and that was the last seen of her. She was finally located in New Orleans and steps taken to bring her back here, but she fought extradition and managed to escape.

Again she was located in Maryland and Indiana, but is said each time to have eluded the police. Finally Jesse James was apprehended by the local authorities paying her taxes and he, on being questioned by the police, revealed that Mrs. Colden and little Vera were in San Diego. A policeman left here today to bring them back.

## Wreck Searched for Additional Bodies

PHILADELPHIA, Dec. 6.—Search was continued today for several additional bodies, thought to be in the debris of the wreck near Bryn Athyn, which so far has claimed a toll of twenty-five lives and injured seriously more than a score.

The wreck occurred on the on-track Newtown division of the Philadelphia and Reading railway, when two passenger trains collided head-on on a sharp curve.

Fourteen of the dead have not so far been identified.

**TWO RUNAWAY BOYS HELD.**  
SAN FRANCISCO, Dec. 6.—Two runaway boys, Otto Kittle and Allan Sears, aged 17 and 15 respectively, were found by the police today at the Sunset hotel, 153 Market street. They escaped yesterday afternoon from the Pacific Union College at St. Helena, where they were held at the juvenile detention home.

## Operation Held Necessary to Halt War Hero's Crime Career

Brain Affected by Wounds, Veteran Says; Savants Are Studying Case.

PATRICK O'BRIEN, whose leaning toward crime may yield under surgeon's knife.

BERKELEY, Dec. 6.—Whether an operation on brain will cure Patrick O'Brien, 24-year-old shell-shocked and wounded Canadian war hero and self-confessed burglar and highway man of his criminal tendencies is the problem facing Berkeley officials and scientists of the bay region.

In his cell in Berkeley O'Brien sometimes known as George Hobbs, member of a prominent Detroit family and hero of a dozen famous battles of the world war, begs that he be not turned loose.

"Cure me! Cure me!" is his plea to Chief of Police August Vollmer. "I don't want to be a criminal, but I can't help myself."

O'Brien's brain has been photographed and he is undergoing close scrutiny at the hands of Dr. Jan Don Ball, Oakland psychiatrist.

**WOUNDED THREE TIMES.**  
O'Brien can boast of a war record which caused him to be taken from the battle line three times with serious wounds. It was after the third wound in the summer of 1918 that he lost his memory, a shell tearing a hole in the back of his head. It was after his release from the Canadian camp that he began his criminal career, says O'Brien.

"They thought I was cured, but I found that my brain did not function as formerly," says he. "I was seized with an irresistible impulse to commit crime," he says.

He has no regrets that he sacrificed the vigor of his young manhood in the battlefields.

"I don't want sympathy or praise," he says. "All I want is to be cured. I'm willing to undergo any treatment, any kind of an operation. I'd rather die than be as I am at present."

Chief Vollmer has interested himself in the case and is doing everything in his power to aid O'Brien.

"Unfortunately there is no place in California to care for the type of criminal of which O'Brien is merely an example," says the chief. "Be- cause I doubt he should not be turned loose. In his present state he is a menace to himself and society. The penitentiary is no place for him. He will come out of jail the same as he went in, unless steps are taken to cure him. Yet, under existing conditions, there is no place for him but the penitentiary. It is undoubtedly where he will be sent, however. It is time that the state assume the responsibility in caring for

this class of mentally sick criminals."

Arrested with O'Brien was Clyde Cottrell, former sailor and member of the medical corps, the two being classified as Berkeley's "bungalow burglars" because of the type of jobs committed by them. Chalked up on the police slate against them are burglaries, automobile thefts, highway robberies and other "jobs" all the way from Los Angeles to Siskiyou.

Full reports of O'Brien's mental state will be awaited by the police before any action is taken in his behalf. In the meantime he is facing trial in the Superior court on two counts of burglary. He has refused to notify his foster-parents in Detroit of his predicament, declaring that he cannot ask them to get him out of new trouble, inasmuch as they have "smoothed things over" in the past.

## Friends of Gov. Stephens Say Charges Fall Flat

Unless the attack of the thirteen Southern California legislators upon Governor William D. Stephens is to be followed with the disclosure of a candidate of presentable qualities, it will have little effect on the gubernatorial campaign, according to members of the administration and others interviewed today. Each day that passes between the attack and announcement by the Governor's opponents of a man they will back is accepted by friends of the administration as adding to the quality of flatness with which they say the charges have fallen.

It is not so much that the southern complaints are without grounds as that they are not new; that causes local politicians to belittle their effect. More than that, the South is not a unit in the move, the move appearing on the statement being 13 out of the 35 legislators from that section.

The attack on Governor Stephens is aimed at alleged extravagance for the administration in office. The charges made are those that were heard during the argument of the King bill fight and the charges make them were active in opposition to that measure. Right then, when the administration was putting all of its strength to carry the King bill and was exerting some unusual pressure on certain legislators, enemies were made that have this week found expression. Politicians do not doubt the force of the arguments used, but there are some who hold that opposition to Governor Stephens and his organization will get nowhere with sporadic outbursts, and that the heavy artillery should have been saved for a time when the use of a candidate could have been proclaimed.

There is less talk of other candidates for the governorship than there was a month ago. In the Democratic ranks Ex-Congressman William Kettner and J. O. Davis, former collector of the port, are being mentioned. Friend W. B. Hughes, State treasurer, announced opponent for the Republican nomination, is touring the State in an automobile. He is charging the administration with extravagance and a million dollars' residence in the South, but, so far, he is without the endorsement of the southern men who have come out in the open in their opposition to Governor Stephens. Judge R. M. Clark of Ventura is also a Republican candidate.

LOS ANGELES, Dec. 6.—H. M. Haldeman, president of the Los Angeles county unit, Better American Federation, made public here a telegram he said he had sent to Governor William D. Stephens in response to the governor's reply to the statement issued here Saturday by thirteen Southern California members of the California legislature.

Haldeman's telegram said: "The Associated Press quotes you as charging the Better American Federation and a group with the boast that 'they have a million dollars to be spent in the next election,' and continued, 'Who are they that made the boast?'"

"In the same paragraph you state that would be a small investment to them compared with the great riches they would take from the people of California."

"If this means anything it is either a statement that a corruption fund of one million dollars is available for the purpose of enriching some individual or group at the expense of the state, or intended to mislead."

"It is your duty to furnish and we request that you furnish this organization with the necessary evidence of the existence of this fund and the parties interested, or declining to furnish it to us."

"We ask you to direct the attorney general of the state to bring the matter before the proper court."

"The failure upon your part to prove your charge will give the people of the state of California an opportunity to properly appraise your capacity for veracity."

## FORGET-ME-NOT DAY PLANS MEET WITH APPROVAL

Business Men Cooperating in  
Big Drive to Be Held on  
December 17.

The committee in charge of the Forget-Me-Not Day drive reported today that arrangements were going forward rapidly, stating that they were receiving the co-operation of practically all the business men of the city. Forget-Me-Not Day will be observed on Saturday, December 17, under the auspices of the Disabled American Veterans of the World War for the purpose of raising funds to aid the disabled war veter-

ans who find themselves out of employment.

It is pointed out that many disabled veterans, due to economic conditions, find themselves members of the army of unemployed and come to their own organization for assistance. It is hoped that, through the drive, sufficient money will be raised to finance the organization for the next five years. Arrangements have been made for the local chapters conducting the drive to retain half the money raised to defray the expenses of those chapters, and for the other 50 per cent to be turned over to the national organization.

Those laying the plans for the drive express themselves as confident that the fund raised on Forget-Me-Not day will be sufficient to put each chapter on a sound financial basis and enable the national organization to carry out its work of assisting the disabled veterans of the World War.

One of the plans of those arranging for the national drive is for each chapter in the country to designate a bank to act as custodian of the money raised in the drive. All funds collected will be immediately turned over to the banks designated for that purpose.

The American Society for the Prevention of Cruelty to Animals offers a prize of \$500 for a humane trap for fur-bearing animals.

## Alien Mothers Made Goal of Education Week

By EDNA B. KINARD.

After all, what do we know about our city? This is education week, when citizenship is being stressed and particular thought is being turned toward those born under other flags who have come to dwell in our midst. The children—the men ever are being brought forward prominently, but what of the little mother, shy, shrinking within her own home, who has left the land she knows to dwell among foreigners?

The color of the eyes or the hair or the skin has little to do with the mother heart that beats for its children. Whether Chinese, Mexican, Japanese, Russian, Italian, Hungarian—or American, the mother who is growing up into manhood or womanhood and American citizenship claims every heart throb of her who is striving for it.

Is it strange then, that Oakland Federation of Mothers' Clubs is reaching out to the foreign born mother, inviting her to an important place in the citywide program of child welfare? Strange tongues are making no difference. Lack of English is being no bar to active participation in local associations.

What if three or four interpreters are needed before all the women present understand what the discussion is all about? Patience is all that is needed. Down to the Prescott school the parent-teacher association fortnightly calls upon its friends to serve in the capacity of go-betweens and halts the meeting while language after language follows the English. But the mothers are all working together for the American child in the public schools.

Harrison school has its club of foreign mothers sponsored by the Claremont Parent-Teacher Association. Sometimes six, sometimes more nationalities assemble, unable to converse much together because of their lack of English or knowledge of each other's tongues, but united upon the need which they are doing for the tots playing about, which is the link between them all.

Claremont women teach them to sew and instill something of American's boasted democracy over the cup of tea and homemade dainties which are a part of the regular gatherings. Japanese, Chinese, Hungarian, Italian, Russian, Polish are the main factors in the little group.

Second district, California Congress of Mothers, is undertaking the important task of revising its constitution and by-laws to meet the large demands which have been made upon it and bring it into conformity with the amended constitution of the California Congress of Mothers. Mrs. J. W. H. Marston of Berkeley is chairman of the committee preparing the revision. The amendments will be presented before the annual convention in April.

Twelve organizations have been added to the second district since Mrs. W. H. Marston of Berkeley assumed the presidency in March. They are: Mill Valley Federation, Alameda Federation, Alameda High P. T. A., Todd P. T. A. (Santa Rosa rural), Windsor P. T. A. (Sonoma county), Ravenwood P. T. A. (San Mateo county), Eucalyptus P. T. A. (Sebastopol), Horner and Taylor P. T. A. (Mill Valley), Harrison P. T. A. (San Francisco), San Anselmo and Yolanda P. T. A. (San Anselmo).

A rest room for the accommodation of the visitors who will attend the Country Fair, the big benefit which will open Monday night in the Municipal Auditorium under the direction of Oakland Federation of Mothers' Clubs, is being planned by Pelek School Parent-Teacher Association, which is foregoing an opportunity to swell its treasury to offer the complement.

A Pair Booth, in which every article offered will come in twos, from hand embroidered pillow slips to baby booties, will be the contribution of Melrose grammar school, from kindergarten to ninth grade. The mothers plan to furnish every classroom with well selected, framed pictures and for the sake of the fund have bent every effort to collecting a store of exquisite novelties to be offered at reasonable prices.

Melrose Heights clubwomen will meet tomorrow to complete their plans for the Country Fair.

Sigma Phi Sigma Mothers' Club will meet in the final session of the semester at the crest of the country house in Berkeley. A business session will be followed by an informal tea. Officers of this unique mothers' club are: President, Mrs. N. B. Butler; vice-presidents, Mrs. W. Fisher, Mrs. C. G. Fisher; secretary, Mrs. C. A. Muller.

EXAMINATION SET.  
MARTINEZ, Dec. 6.—On motion of F. M. Littleton, federal naturalization examiner, Superior Judge A. B. McKinnis today fixed Tuesday, December 20, for examination of discharged soldiers who have applied for admission as citizens.

Special 98c  
The popular fabric of the season in silver, pink, sky, gold and orange, at an unheard of price.

BENEFIT IS SUCCESS.  
MARTINEZ, Dec. 6.—Success attended the benefit entertainment given Saturday night at the Pleasant Hill school by the Parent-Teachers Association, to raise funds for purchase of a piano for the school. A tabulation today showed

that \$125 had been cleared. The school auditorium was packed for the entertainment and the dance that followed. A minstrel show topped the entertainment program. The minstrel feature was arranged by men of the district and was a pleasing affair. Those taking part

were Stanley Hook, I. Tikio, G. B. Putnam, B. Brockhurst, John Haberley, Henry Vessing, Alma Hill, George Miller and Martin Pasching. Other numbers were a song by Miss Ardene Vessing, an interpretative dance by Miss Ella Dukes and piano solos by Jane Wilke.

JURY IS ASKED.  
MARTINEZ, Dec. 6.—Application for a jury trial of the Beishaw estate contest was made today to Superior Judge R. H. Latimer by a half-dozen of the more than 25 claimants of the estate. Judge Latimer set the application under advisement.

## COUNTRY FAIR PARADE DETAILS ARE ANNOUNCED

Mothers and Teachers Will  
Swell Ranks of Marchers  
Next Saturday.

The Country Fair Parade, the preliminary to the Country Fair, the benefit which Oakland Federation of Mothers' Clubs will hold in the arena of the Municipal Auditorium December 12 and 13, has been definitely announced for 10:30 a. m. Saturday. Every school in the city will be represented in the long line of march with bands, floats and costume features. Mothers will join the procession, recruiting faculties, principals and members of the school department to their numbers. Mrs. Edward Morgan Jones is general chairman of the parade committee, W. A. Jenner, principal of Hawthorne school, serving as grand marshal.

Special awards have been offered to the school entering the best sustained float, the most novel float, the most humorous float, with three special awards to the best sustained character, the most novel character, the most humorous character.

The line of march will be from Chabot hall, east on Eleventh street to Broadway, north to Nineteenth street, west to San Pablo avenue, south to Clay street, returning to Chabot hall. Local parade chairman will meet in Chabot hall at 3:30 p. m. Friday to perfect details.

Plans for the Country Fair which will open on Monday night at 7:30 under general direction of Mrs. L. C. Grasser, have assumed great proportions, with more than forty booths being stocked with holiday goods for the Christmas shopper. Scholarship

## Family of Man Who Won Mayoralty on "Spooning" Platform

The above photo shows Mrs. George Lawrence Oles, with her daughters, Georgia, 8, and Gayle, 6. Her husband, Col. George Lawrence Oles, was this month elected Mayor of Youngstown, Ohio, by a 485 vote majority over his republican opponent, the incumbent, although an entire G. O. P. ticket was elected other-

wise. His campaign pledges included the rights of the public to spoon in the parks and to decide the length of its own skirts, his campaign ads saying: "The squirrels raise their families in the parks—why shouldn't the taxpayers have the same right?" "There's a lot of fuss about the women's skirts. Elect me

mayor and I'll mind my own business. The ladies can wear their skirts as long or as short as they please." He has picked millionaires for safety and service directors in the grounds that they are "Men who will work for the good of the city and not for any salary interests."—Photo copyrighted by Underwood.

funds, nutrition classes and philanthropy undertaken by the Parent-Teacher Associations of the city will benefit from the Monday night and Tuesday fair, which will conclude with a nickel dance.

Sailing vessels moving from China and Japan to San Francisco take a northerly course.

Mrs. Amy Davis-Winship, at 90 years, enrolled as student at the University of Wisconsin.

## SENATOR SMOOT MOVES TO CARRY OUT TARIFF AIMS

Amendment Introduced for  
Flexibility; Funding Bill  
Meets Obstacle.

WASHINGTON, Dec. 6.—Congress' first move to carry into effect the recommendation of the president for greater flexibility in the proposed permanent tariff law was made today by Senator Smoot, Republican, Utah, who introduced amendments to the bill under consideration by the Senate finance committee embodying in detail the suggestions outlined by Mr. Harding.

The House foreign debt funding bill met its first obstacle in the Senate today. The finance committee failed to reach an agreement with respect to adoption of the commission supervision plan, and after two hours of discussion adjourned until later today.

The Senate today passed its first bill of the session, a measure directing the Secretary of War to turn over to the American commission surplus medical and surgical supplies for use in the famine districts of Russia. Attempts by Senator Francis, Republican, Maryland, to broaden the scope of the measure to include many other spheres and to authorize the sending of a commission to Russia were rejected.

President Harding is understood to have accepted the conclusions and recommendations of the Wood-Forbes mission, which studied conditions in the Philippine Islands and recently submitted a report.

## KIWANIS ELECTS NEW DIRECTORS

Eleven directors for the Oakland Kiwanis club began their new terms of office today, following their elections at the annual meeting of that organization last night, at which President Abe P. Leach was chosen as delegate to the international convention of Kiwanis clubs which will be held in the near future at Toronto.

The eleven directors who were elected to pilot the affairs of the local organization were: Allen C. Hubbard, Dr. George C. Pardee, C. H. Burman, George E. Kestner, Vere W. Hunter, Frank H. Boren, Mervin H. Camp, S. E. Eddle, Fred Kisteman, E. W. Cannon and Abe P. Leach.

Funds totaling approximately \$200 for the club's Christmas distribution among the poor were raised at the meeting, at which President Leach presided and acted as toastmaster, introducing the speakers. Last night's collection raises the Christmas fund of the organization up to several hundred dollars, it was announced today.

An elaborate program of entertainment was presented at the meeting. The club members were entertained by several dialect stories, and a short address by District Attorney Ezra W. Deoto. All present enjoyed a number of magician's tricks and a quartet sang. Before the adjournment was ordered, the club members voted that the session had been the most successful in the history of the organization.

## Eastern Star to Install Officers

ALAMEDA, Dec. 6.—Installation of officers will be held by Carita Chapter, Order of Eastern Star, in Masonic Temple, tomorrow night. Mrs. Pearl O. McCoy will be installed as worthy matron. H. D. Wise as worthy patron; Mrs. Minnie L. Smith, associate matron; Mrs. Jeanne De Berna, secretary; Mrs. Teresa J. Strong, treasurer; Mrs. May Melnick, conductress; Mrs. Maud Olson, associate conductress; Mrs. Anna S. Brown, chaplain; Mrs. Fannie E. Wise, marshal; Miss Edwina Graham, organist; Mrs. Lillian Knapp, warder; Mrs. Agnes Anderson, sentinel; Miss Florence Jackson, Miss Mabel Schumacher, Miss Grace Patey, Miss Crystal Leydecker and Miss Estelle Leach, the star points. The installing officers will be Mrs. Margaret Nobman, Kenneth C. Smith, Judge Elmer Johnson, Mrs. Hulda Riehl, Miss Gladys Healey and Mrs. Charlotte Eilers. The reception committee will be Mrs. Elizabeth Rock, Mrs. Annabel Wing, Peter N. Rock and Dr. William Wing. A fine program will follow the installation.

## Clean-up Drive Will Aid Unemployed Men

BERKELEY, Dec. 6.—Twenty-five unemployed men will be given jobs in Berkeley raking leaves and cleaning yards as a result of council action appropriating \$400. The men, in addition to those already at work, will be given the chance to earn some money at the holiday season. Hollis Thompson, unemployment secretary of the Y. M. C. A., who has been working for the city, originated the plan.

## Alleged Whisky Solicitor Arrested

BERKELEY, Dec. 6.—Vincent Bisbiglia, 62 years old, carpenter and alleged bootlegger, picked out the Keweenaw Manufacturing Company yesterday as a place to peddle whiskey he didn't know that Charles M. Boynton, the manager, was a former city official.

As a result, Bisbiglia is being held for violation of federal prohibition laws. According to employees at the plant, he was soliciting orders for whiskey. He was arrested by Patrolman George Kohler after Boynton, who was a former Berkeley councilman, had notified the police.

Bisbiglia came up in court this morning. His case went over until tomorrow to be set for trial.

## REBEKAHS HOSTESSES

ALAMEDA, Dec. 6.—The members of Fair Oaks Lodge of Rebekahs will be hostesses at an entertainment to be given in Odd Fellows hall, Park street, and Santa Clara avenue, Saturday night. Mrs. Franklin Crane, well known contractor, will be the star of the program, singing several numbers. Other features will also be presented.

## ROULETTE DANCE

BERLIN, Dec. 10.—Roulette dancing has become a craze here. The floor is divided into three squares, all numbered. While the musicians play the lights are turned out and an indicator is spun over a large number.

## HOLY SEE MAY FAVOR LEAGUE

By HENRY WOOD  
United Press Staff Correspondent.

ROME, Dec. 7.—In the recent formal decision of the Italian Popular (Catholic) party to throw the whole weight of its influence in favor of the League of Nations and the International Labor Bureau, Italian politicians not only profess to see the hand of His Holiness, but also to see the first step of the Holy See toward eventual admission of the League of Nations.

That Pope Benedict has cherished this new hope ever since President Wilson first gave utterance to the idea of a society of nations has never been secret. The only thing that has prevented the Vatican from taking definite steps toward that end has been the certainty of severe opposition that would be aroused in various quarters, and especially in Italy—at least as long as the Vatican-Quirinal question remains unsettled.

When, the past summer, there was summoned at Geneva an international conference for stricken Russia, in which the League of Nations, the Red Cross and other similar international associations participated, Pope Benedict for the first time in years had the Vatican officially represented.

1,800,000 cups were served  
at the PANAMA-PACIFIC  
International Exposition.

# & O. T. RAIL PERT TALKS AT LUNCHEON

H. Pickard Addresses  
Men on Problems  
of Public Utility.

San Francisco and Oakland  
railways is a public utility  
to public service and as  
support of public support  
in the payments of adequate  
according to Samuel H. Pickard  
expert for the com-  
ment League at its luncheon  
hotel Oakland yesterday  
ten years the more than 2000  
lders in this company have  
and one cent in dividends.  
said, "the larger part of our  
being spent in wages and a  
table portion in taxes im-  
s and equipment.  
only source of revenue for  
public utility is in fares. In  
it labored under handicap

## ROCKEFELLER, JR., BORROWED COAT FOR CEREMONY

NEW YORK, Dec. 6 (By the  
Associated Press).—John D. Rock-  
efeller Jr., one of the world's  
richest men, yesterday confessed  
he had had to appear before the  
Empress and Crown Prince of  
Japan in a borrowed frock coat  
that fitted him only pretty well.  
Rockefeller, who has just re-  
turned from the Far East, said  
he had been invited to an impor-  
tant garden party in Tokyo but  
he could not gain admittance with-  
out a frock coat. A bit of im-  
pudence it had not seemed worth  
while to take along.  
Finally Charles Warren, the  
American ambassador lent him one.

**S. J. COUPLE WID**  
MODesto, Dec. 6.—Percy Du-  
gene Vaughan, aged 38, and Norma  
Lee Hayes, 17, both of San Jose,  
were married here last week. It was  
learned today. The license was is-  
sued with the written consent of Mrs.  
Ethel Barrows, mother of the girl.

## TRANS-ATLANTIC WIRELESS TESTS OPEN TOMORROW

Amateurs All Over the U. S.  
Ready for Attempt to Talk  
to British Stations.

HARTFORD, Conn., Dec. 6.—  
Amateur wireless stations in each  
state and in practically every city of  
the country are ready today for the  
first extensive trans-Atlantic wireless  
tests ever planned. These will be-  
gin tomorrow at 7 p. m. Eastern  
standard time and close Dec. 16.  
In all between 1,000 and 20,000  
stations will transmit during the  
tests, which will be under the  
auspices of the American Radio Re-  
lay League. It is estimated that  
more than 100,000 stations will  
"listen-in."

To date there is no authentic re-  
cord of an amateur station having  
heard across the ocean but it is  
predicted by Major F. H. Ar-  
mstrong, former chief of the U. S.  
Army radio research division who  
is co-operating with the amateurs in  
the tests, that it will be heard on the other side.  
Henry Peter Maxim of Hartford,  
Conn., president of the Radio League,  
said the experiment is success-  
ful if it will mean the commu-  
nication between this country and  
Europe will become a matter of  
every day occurrence, and that the  
non-commercial operator in any part  
of this country or Canada can for-  
ward messages to friends across the  
ocean at will.  
Paul Goddard, well known wireless  
operator, who has been and per-  
fected the regenerative receiver for  
amateur use is now in England, co-  
operating with 300 British stations  
which will attempt to catch the mes-  
sages from America.

## Modern Highways Topic at C. C. Meet

SANTA CRUZ, Dec. 5.—Modern  
highway improvement was consid-  
ered at the meeting of the Cham-  
ber of Commerce forum this week,  
at the Chamber of Commerce rooms,  
where the three principal addresses  
dealt with highway work. One of  
the speakers was a former highway  
commissioner, L. A. Naves of Fresno,  
whose address was on the "Coast  
Scenic Boulevard."

**PINOLE MAN HELD.**  
MARTINEZ, Dec. 6.—Frank Pre-  
taz of Pinole was arrested Sunday  
afternoon and Monday was charged  
by Edward C. Rowe with driving an  
automobile while intoxicated. Rowe  
claims a collision occurred between  
his machine and a car driven by  
Pretaz. Justice of the Peace F. L.  
Glass, before whom the complaint  
was sworn, fixed Pretaz' bail at  
\$250.

## School Board Must Pay Delinquent Tax

When the Oakland school depart-  
ment acquired land the taxes for  
which have not been paid by the  
private owner, those taxes will have  
to be paid, either by the owner or  
the school department. There will  
be no cancellation. This announce-  
ment was made by City Attorney  
Leon Gray, Jr. as the result of a query  
by the Oakland school district.  
"When the school district ac-  
quired the land," says Gray, "it  
took them subject to existing liens  
for municipal taxes, as would a pri-  
vate purchaser. There will of  
course be no assessment in future  
years, but there will certainly be no  
cancellation of the past assessment."  
The case came up in the matter of  
a tract purchased by the school  
board, where it was found that the  
seller of the property had not paid  
his taxes when they were due.

## ASK THE TRIBUNE Bureau of Information

Please tell me what can be used of petroleum, gas, and the stump  
to kill the stump of a tree in the will smoulder to the extremities of  
city without injuring vegetation the roots leaving only ashes, but  
"ask it" requests a TRIBUNE reader signing himself C. W. W.  
In the fall of the year, bore a hole  
in the center of the stump, about  
18 inches deep, and one to one and  
one-half inches in diameter. Put in  
about two ounces of saltwater and  
fill the hole with water. Plug it up  
with a cork. In the spring take out the  
plug, pour in eight or ten ounces of  
water and the stump will be able to help him.

## Sutter-Butte By-Pass Protests Are Heard

YUBA CITY, Dec. 6.—Three Su-  
perior Court judges sat in special  
session here yesterday to hear ob-  
jections of property owners to an  
assessment for the Sutter-Butte by-  
pass project. The judges, Joseph  
Koford of Alameda county, J. W.  
Bartlett of Trinity and C. W. Nicol  
of Tuolumne, were named by Gov-  
ernor Stephens. The taxpayers pro-  
testing the assessment under which  
the State reclamation board plans to  
raise \$3,000,000 are residents of  
Yuba, Sutter and Colusa counties.  
The hearing is expected to last  
about two months. At today's court  
session only documentary evidence,  
such as maps and charts, was intro-  
duced.

**VETERAN BOATMAN PASSES.**  
LEWISTON, Idaho, Dec. 5.—Cap-  
tain Ephraim W. Baughman, 55,  
veteran steamboat captain of the  
northwest, passed away yesterday at  
Moscow, Idaho. Captain Baughman  
crossed the plains with an ox team  
arriving in California in 1899. The  
following year he went to Portland  
and soon after began his career as  
a boatman on the Oregon river.

**RAIN AND CLOUDY WEATHER.**  
No longer interfere with the making  
of photographs. Thousands of up-to-  
date photographers have closed up  
their skylights, assuring superior and  
more uniform results with artificial  
light in the posing room. Our studios  
are all equipped with the latest in  
operating lights.  
Studio open evening until 8:30 for  
sittings.  
Don't delay your Christmas photos  
come now.

LARDING ASKS INDUSTRY RELATIONS COURT TO END LABOR STRIFE

LABOR-CAPITAL LEGISLATION TO END STRIFE ASKED

S. Industries Relations Court to Avert Boycotts and Strikes Urged.

(Continued from Page 1)

Necessarily legislation is a matter of compromise. The full ideal seldom attained. In that event, it is necessary to insure that there must and will be accommodations and compromises in the estimate of convictions of sincere purposes, the supreme responsibility to national interest not be ignored. The shield to high-minded public servant to adhere to party policy is unjust but the higher purpose is a good of the republic as a whole.

Practical Work of Special Session

It would be ungracious to withhold acknowledgment of the real large volume and excellent quality of work accomplished by the extraordinary session of Congress. I am not unmindful of the very difficult tasks with which you were called upon to deal, and no one can ignore the extent of the work which, during the past year, has been called for the continued and almost exclusive attention of your membership in this work. It would suggest, in my opinion, in seeking the reduction, amelioration and readjustment of the burdens of taxation. Later on, when other problems are presented, I shall make suggestions. I am not unmindful of the fact that the government, unaided by the aid of the people and diminished resources, has been called upon to meet the needs of the nation and to improve methods of taxation.

Budget System

Adapted to Economy

In these urgent economies we are all immensely assisted by the budget system, for which you have provided in the extraordinary session. The first budget is before you. Its preparation is a national achievement and the perfection of the system, a thing impossible in the few months available for its initial trial, will mark the beginning of the beginning of a great reform in government practices since the beginning of the republic. There is pending a grant of authority to the administrative branch of the government for the ending and settlement of our vast foreign loans, growing out of our war credits. With the hands of the executive branch held up, the government is hindered in its efforts to deal with these debts, are hindering urgent readjustments among our debtors and accomplishing nothing for ourselves. I think it is fair for the Congress to assume the executive branch of the government would not have a major policy in dealing with these matters which would conflict with the purpose of Congress in authorizing the loans. Certainly, without asking for congressional approval, but there are national problems incident to prudent loan transactions and the safeguarding of our interest which cannot be attempted without legislative authority. It will be helpful to ourselves and will improve relations among our debtors if ending the settlement of defaulted interest may be negotiated.

Shipping Act Needs Revision

The previous Congress, deeply concerned in behalf of our merchant marine, in 1920 enacted the shipping law, designed for the rebuilding of the American merchant marine. Among other things provided to encourage our shipping on the world's seas, the law provided to give no part of the termination of all existing commercial treaties in order to limit of reduced duties on imports carried in American bottoms. During the life of the act, no law has been enacted to carry out the purpose of the act. The law has been in violation of the order of Congress. When the present administration came into responsibility, it began an early inquiry into the failure to execute the purpose of the law. The only one conclusion has been possible. Frankly, members of the House and Senate, eager as I am to join you in the making of an American merchant marine commensurate with our commerce and nonpayment of our commercial treaties would involve us in a

Good of Republic Aim of Patriots In All Parties

NECESSARILY legislation is a matter of compromise. The full ideal seldom attained. In that event, it is necessary to insure that there must and will be accommodations and compromises in the estimate of convictions of sincere purposes, the supreme responsibility to national interest not be ignored. The shield to high-minded public servant to adhere to party policy is unjust but the higher purpose is a good of the republic as a whole.—Extract from President Harding's message.

PRESIDENT HARDING

President Harding

chaos of trade relations and add indelibly to the confusion and the already disordered commercial world.

Will Offer Plan to Congress Later

It is not my thought to lay the problem in detail before you today. It is desired only to say to you that the executive branch of the government, unaided by the aid of the people and diminished resources, has been called upon to meet the needs of the nation and to improve methods of taxation.

Changes in Tariff Measure Essential

There is before you the completion of the enactment of what has been termed a "permanent" tariff law, the word "permanent" being used to distinguish it from the emergency act which the Congress expedited early in the extraordinary session and which is the law today. I cannot too strongly urge an early completion of this necessary legislation. It is needed to stabilize our industry at home; it is essential to make more definite our trade relations abroad.

U. S. Must Aid in Reconstruction

Again comes the reminder that we must not be unmindful of world conditions, that peoples are struggling for industrial rehabilitation and that we cannot dwell in industrial and commercial exclusion and at the same time do the just thing in aiding world reconstruction and readjustment.

We do not seek a selfish aloofness, and we could not profit by it, were it possible. We recognize the necessity of buying wherever we sell, and the permanency of trade lies in its acceptable exchanges. In our pursuit of markets, we must give as well as receive. We cannot sell to others who do not produce, nor can we buy unless we produce at home. Sensible of every obligation of humanity, commerce and finance, linked as they are in the present world condition, it is not to be argued that we need destroy ourselves to be helpful to others.

Flexible Exchange System Proposed

Doubtless we are justified in seeking a more flexible policy than we have provided heretofore. I

AID FOR FORMER SOLDIERS HELD NATIONAL DUTY

Harding Advises Congress That Debt to Defenders Should Be Remembered.

hope a way will be found to make for flexibility and elasticity, so that rates may be adjusted to meet unusual conditions, conditions which cannot be accurately anticipated.

Seeks No New Presidential Powers

At this point I must disavow any desire to enlarge the executive's powers or add to the responsibility of the office.

There is manifest difference of opinion about the merits of American valuations. Many nations have adopted delivery valuation as the basis for the cost of the imports delivered at the port of entry as the basis for levying duty.

Fix Tariff Rates By Proclamation

In this proposed flexibility, authorizing increases to meet conditions so likely to change, there should also be provisions for decreases. Rates will be just today and entirely out of proportion six months from today. If our tariffs are to be made equitable and not necessarily burden our imports and hinder our trade abroad, frequent adjustment will be necessary for years to come.

Foreign Loan Adjustments

Much has been said about the protective policy for ourselves making it impossible for our debtors to discharge their obligations. This is a contention not now pressing for decision. If we must choose between a people in idleness pressing for the payment of indebtedness or a people resuming the normal ways of employment and carrying the credit, let us choose the latter.

Farmers' Burdens Must Be Lightened

Something more than tariff protection is required by American agriculture. The farmer has come the earlier and heavier burdens of readjustment. There is actual depression in our agricultural industry, while agricultural prosperity is absolutely essential to the general prosperity of the country.

Non-Taxable Bonds Declared Menace to Nation's Future

I CANNOT end this limited address without a suggested amendment to the organic law.

Many of us belong to that school of thought which is hesitant about altering the fundamental law. I think our tax problems, the tendency of wealth to seek non-taxable investment and the menacing increase of public debt, federal, state and municipal—all justify a proposal to change the constitution so as to end the issue of non-taxable bonds. No action can change the status of the many billions out-

Cooperative Market Program Approved

In the main the remedy lies in the distribution and marketing. Every proper encouragement should be given to the cooperative marketing programs. These have proven very helpful to the co-operating communities in Europe.

Drift to Cities Gives Concern

The base of the pyramid of civilization which rests upon the soil is shrinking through the drift of population from farm to city for a generation we have been expressing more or less concern about this tendency. Economists have warned and statesmen have deplored. We thought for a time that modern conveniences and the more intimate contact would halt the movement, but it has gone steadily on.

Small Cities of Value to Nation

We have a just pride in our great cities, but we shall find a greater pride in the nation, which has a larger distribution of its population into the country where comparatively self-sufficient smaller communities may blend agricultural and manufacturing interests into harmonious helpfulness and enhanced good fortune. Such a movement centers plates no destruction of things wrought, of investments made, or wealth involved.

Capital and Labor Offer Problem

Through the eradication of illiteracy and the diffusion of education, mankind has reached a stage where we may fairly say that in the United States equality of opportunity has been attained, though all are not prepared to embrace it. There is, indeed, a too great divergence between the economic conditions of the most and the least favored classes in the community. But even that divergence has now come to a point where we bracket the very poor and the very rich together as the least fortunate classes. Our efforts may well be directed to improve the status of both.

Right to Organize Is Unquestioned

The right of labor to organize is just as fundamental and neces-

GENEROUS AID TO SUCCOR STARVING RUSSIANS URGED

President Tells Congress Needs of Old World Must Be Met.

carefully defined, it should be possible to set up judicial or quasi-judicial tribunals for the consideration and determination of all disputes which menace the public welfare.

Debt to Soldiers Should Be Met

After each war, until the last, the government has been enabled to give homes to its returned soldiers and a large part of our settlement and development has attended this generous provision of land for the nation's defenders.

Mediation to Avert Strikes Proposed

As we have great bodies of law carefully regulating the organization and operations of industrial and financial corporations, as we have treaties and compacts among nations which look to the settlement of difficulties without the necessity of conflict in arms, so we might well have plans of conference, of common counsel or mediation, arbitration and judicial determination in controversies between labor and capital. To accomplish this would involve the necessity to develop a thoroughgoing code of practice in dealing with such affairs.

Tariff Based on Welfare of Our Own Advocated

THERE is before you the completion of the enactment of what has been termed a "permanent" tariff law, the word "permanent" being used to distinguish it from the emergency act which the Congress expedited early in the extraordinary session and which is the law today. I cannot too strongly urge an early completion of this necessary legislation. It is needed to stabilize our industry at home; it is essential to make more definite our trade relations abroad.

expediting the completion of projects long under way.

Reclamation and Irrigation Fund

These resources are so vast and the development is affording so reliable a basis of estimate that the Interior Department expresses the belief that ultimately the present law will aid in royalties and payments to the treasuries of the federal government and the States containing these public lands to the extent of \$100,000,000.

Harding Proposal For Ending Labor Wars Surprises

THE president's statement concerning capital and labor caused a mild sensation and his suggestion that there might be a quasi-judicial tribunal to settle labor disputes was interpreted by many members of congress as an endorsement of the Kansas industrial court plan, although the president's statements along this line were rather indefinite.—Washington Dispatch.

AMENDMENT TO BAR NON-TAXABLE BONDS ADVOCATED

President Says Constitution Should Be Changed to Prevent Abuses by Rich.

cut-over lands which may be reclaimed and made as valuable as any farm lands we possess. These acres are largely located in the Southern States and the greater proportion is owned by the States or by private citizens.

While we are thinking of promoting the fortunes of our own people, I am sure there is room in the sympathetic thought of America for fellow human beings who are suffering and dying of starvation in the valley of the Volga. A severe drought in Russia, has plunged 15,000,000 people into grievous famine. Our voluntary agencies are exerting themselves to the utmost to save the lives of children in this area, but it is now evident that relief is afforded the loss of life will extend to many.

**Shotgun Squads in Autos to Patrol S. J.**  
SAN JOSE, Dec. 6.—To reduce burglaries within the city to a minimum, Chief of Police J. N. Black last night had the residence section patrolled by three automobiles, in each of which were two officers, armed with sawed-off shotguns. This patrol will be on duty every night. Five burglaries committed Sunday night and one yesterday inside the city were the immediate cause of this action.

**"Horse and Buggy" Reported Stolen**  
SAN JOSE, Dec. 6.—Reminiscence of a by-gone day was the report to the sheriff's office last night by A. C. Piercy, rancher, that during his absence from his ranch a bay mare, a rubber tired top buggy, saddle and shot gun were stolen. A Mexican ranch hand is also among the "missings" and all are now being sought. The American Horse Society was organized in 1859.

## PREVENTORIUM SITE APPROVED

SAN FRANCISCO, Dec. 6.—City officials are to hold a conference next Monday morning in connection with the proposed purchase of a site at Livermore for the preventorium for children in the incipient stage of tuberculosis. The site comprises 190 acres and adjoins Alameda county tuberculosis preventorium. It has been offered to San Francisco for \$25,000, which is \$10,000 less than the original price asked. The matter was brought to the attention of the board of supervisors yesterday by Supervisor Hall, McLean. He said the site definitely has been selected. McLean pointed out that the only obstacle to acquiring the land is a recent court ruling which holds that the purchase of municipal property cannot be made outside the corporate boundaries of the city. In this connection it was pointed out by McLean that City Attorney Lester Perry recently rendered an opinion that as this city's climate is unsuited to the treatment of tuberculosis Judge Murasky's decision can be overruled.

## Seven Men Fined on Gambling Charges

MODESTO, Dec. 6.—Seven men who were arrested in a midnight raid at Oakdale on charges of gambling, were arraigned before Justice of the Peace Wilkinson in a night session of the court that night. Five of them pleaded guilty and were fined \$50 each. They are Charlie Ponceburt, C. Todd, J. M. C. Noyes and J. Soles. Chris Walther, who kept the poolroom where the game was going on, pleaded guilty to keeping a gambling house and got the same fine.

**WANT JUDGE'S JOB.**  
HAYWARD, Dec. 6.—A petition is being widely circulated here naming Lester Perry a local attorney and member of the Hayward board of trustees, for the post of justice of the peace, now about to be vacated by Judge Frank Mitchell Jr., whose resignation follows an appointment to the district attorney's office. Perry, Attorney C. W. White has also entered the field for the local justiceship. Both Perry and White are well known in legal circles around the county. Another lawyer, C. H. Christian, has been named as a possible candidate for the office.

## News of the Churches

### Rabbi Sees Creeds Unified

There will be one religion ultimately and that will be the religion of service in which deeds, not creeds, will predominate, and in which acts of helpfulness will be more important than prayer. Rabbi Rudolph I. Coffee of Temple Sinai made this prediction Sunday night, speaking in Plymouth Congregational church on Israel's Contribution to Civilization. He declared that Israel's greatest contribution is the Holy Bible, and stated that he meant both the old and the new testaments. He said that the sources of every world movement today can be found in one or the other of the testaments, which he said were written by Jews, chiefly for Jewish people. He continued: "First, I shall discuss the question of abolishing war. The old testament in Isaiah and Micah first charged to preserve the men could get along without fighting one another, but for over two thousand years so-called civilization believed that the only way to settle disputes was through the power of might. The second point to which I call your attention is the importance of human life. The old testament said that man is created in the image of God and every person, man, woman or child, must be held sacred. Have we in America learned this lesson? Israel first gave the world an idea about protecting human life. When we have a good child labor law and absolutely wipe out such needless forms of disease, then will America begin to follow the law which Israel first brought to the world. "Israel today occupies outstanding world positions. In India, ruling three hundred and fifty million citizens who are on the verge of open rebellion is Lord Reading. In Palestine another Jew, Sir Herbert Samuel, is protecting the entire world by holding the reins of power. "Israel's final contribution to civilization is the idea of one religion. The Bible first taught the idea of the brotherhood of man and the fatherhood of God. It is a wonderful advance that Jews and Christians may meet and find fellowship together in the same building at the same time."

### FIRST UNITARIAN.

Are we reverting to fetishism, and casting aside the results of the discoveries of the sciences? Rev. Clarence Reed, pastor of the First Unitarian church believes there is a tendency and sees indications of it in the increase of the use of mascots, charms and the various forms of occult, even among the white races. He discoursed upon the subject in his sermon Sunday morning, taking as his theme "The Greatest Actor of the Year," who, he said, was Charles S. Gilpin, the negro. He said in part:

The tendency to revert to the primitive and superstitious faith in time of danger is not peculiar to the negro. Amulets are worn today. The greater is its popularity. Applications are being made to obtain patents for certain luck charms. People who have a mascot explain that it is only for good luck, but that it is to confess a belief in superstition. The belief in the efficacy of amulets, charms and mascots is based upon ignorance of the law of cause and effect.

### FIRST BAPTIST.

In connection with the every-member canvass which was conducted yesterday afternoon among the members of the First Baptist church, Rev. John Snape, the pastor, preached a sermon Sunday morning on "My Church and I," in which he set forth doctrinal tenets and told what the church should stand for in the community. "It is easy to make cheap criticisms of the church," he declared. "A woman who sought to be governed by Napoleon Bonaparte during her campaign said 'people who lead in prayer never lead in anything else,' and added that 'the churches have always been behind in everything.' Well—she is still behind the governorship."

"A man joins the church for three reasons—profession, protection, service. Profession of faith in Christ, of obedience to the laws of love, for Christ, protection, the protection of definite personal commitment to a person, of human comradeships, of the consensus of conscience, service, that is at once efficient, altruistic, spiritual."

### FIRST PRESBYTERIAN.

"Christ's Psychology for Prayer That Works" was the subject of Rev. Frank M. Silsley's evening sermon at the First Presbyterian church Sunday. He said in part: "Many men doubt prayer today. They look upon it either as a superstition or a violation of the laws of the universe. But Christ teaches a conception of prayer that wholly harmonizes with the order of the universe. "Christ teaches that prayer is one of the fundamental beliefs for life. Christ enlarges the scope of love to include everything. A businessman has a perfect right to pray for honest business success. "We do not want again war-time prosperity, which was based upon the misfortune of humanity, but a prosperity with the benediction of Heaven. We have a right to pray for events in our everyday life and in the world. "But the greatest object of prayer is spiritual blessing that makes us like Christ—the great ideal. But we must observe the conditions for prayer, which are not only faith in Christ, but the forgiving, merciful spirit."

Though he feared battle himself, Sitting Bull was a recognized leader on account of reputation as a "Medicine Man."

**Just One Little Pimple**  
Although a pimple will often appear despite the care given your skin, a bit of Black and White Beauty Bleach applied at bedtime will safely and quickly remove this blemish.

Black and White Beauty Bleach is the ideal skin beautifier in instances of tan, freckles or dark blotches. Black and White Soap—fragrant and dainty—should be used in connection with Beauty Bleach to keep the skin cleansed of all impurities. Black and White Cleansing Cream may be used to slough any irritation due to over-sensitive skin tissues or exposure to the air. Your druggist sells and guarantees Black and White toilet preparations. Ask for a copy of the popular Black and White Dream Book, or write direct to Dept. E., Plough, Memphis, Tenn.

## OAKLAND DAY AT INDUSTRIES SHOW

Tomorrow will be "Oakland and Alameda County Day" at the California Industrial Exposition at the Civic Auditorium in San Francisco. A large delegation of Oakland business men and visitors will attend. Among those who will attend will be a number of representatives of the Oakland Chamber of Commerce who have announced that they will put the industrial district on every show. George Sharpe heads the special committee which is lining up delegates from every industry in the Eastbay district. Serving on the committee with Sharpe are A. H. Schadt, T. W. Reese, L. Richardson and Herbert F. Rea. Mayor John L. Davis yesterday issued a proclamation calling attention to the observance of "Oakland Day" tomorrow at the exposition and urged all those who can to attend. Today was Santa Clara and San Mateo Day. Cooking demonstrations, manual training work and music composed the greater part of the program. Tonight there will be a public debate between the teams of Humboldt high school, followed by a chorus of 200 boys from the Columbus Park Boys' club. At 6 o'clock there will be the usual distribution of gifts by the exhibitors. Yesterday was "Society Day" at the exposition. The goodies were baked by the girls of the high school cooking classes. Other features of the day included the singing of Americanization songs by children of many nationalities, from 4 to 14 years of age.

## Goes After Thieves, Jails Booze Makers

MODESTO, Dec. 6.—The store of William McLaughlin & Sons in Valley Home was entered by thieves who took loot valued at \$300. The thieves unlocked the front door and locked it again on leaving. Sheriff Dallas and his deputies who went over to investigate, raided the Lager place and found a complete whisky still. The three Lager boys, Carl, Frank and Bruno, are now in the county jail. It had been known for some time that they were selling bootleg liquor, and the sheriff took advantage of the opportunity to kill two birds with one stone.

**FARLAR-TELLEGEN CASE.**  
NEW YORK, Dec. 6.—Counsel for Geraldine Farlar Tellegen, opera star, yesterday laid before the supreme court a motion to have treated as a nullity on the ground of being "frivolous and a sham," certain allegations made by Lou Tellegen, her actor husband, who is suing for a separation.

## Wireless Phone for Top of Eiffel Tower

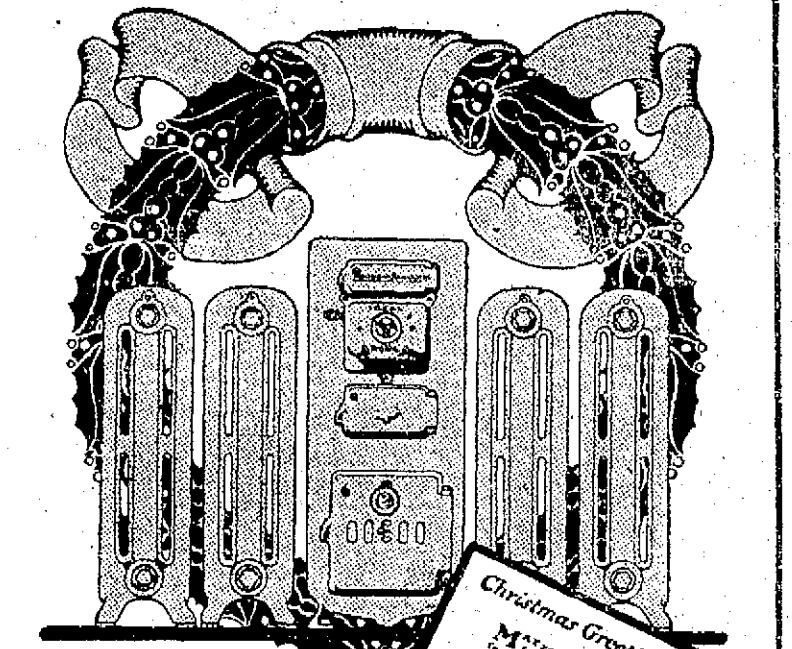

PARIS, Dec. 6.—A wireless telephone news service will soon be distributed from the Eiffel Tower in Paris. The news will consist of important financial and political events in France and throughout the world, the news from foreign countries being picked up by government wireless.

It will be possible for banks and newspapers with receiving stations to receive this official news service free. Announcement of this has been made by General Ferrie, chief of the French Military Wireless Service. He adds that he hopes soon to arrange for wireless telephone service between Paris and London so that any Paris subscriber can talk with a person in London by way of the Eiffel Tower.

No ships of 1850 were more than 200 feet long.

## Support Asked For Relief Drive

HAYWARD, Dec. 6.—Notices were sent out today to all members of the Hayward Chamber of Commerce urging the support of the Associated Charities relief drive now in progress in this city and calling for donations of food and clothing which will be collected by a committee of the Chamber on Monday, December 12, and regularly thereafter, all during the winter months. The Hayward members of the Chamber of Commerce were notified of the action of the other civic institutions of this city with regard to the repair and alteration of the garments given to the Associated Charities which will add over 100 percent to their value. It was also stated that donations could be made directly to the Associated Charities or left at the headquarters of the Hayward Health Center in the library basement.

## A GIFT—Yes, a gift—from your Heating Engineer

If you act now, then on Christmas Eve—

When you tip-toe in where the babies are asleep, you will find each room perfectly warmed by its own American Radiator.

You will touch the hot-water faucet; it will flow with water that really is hot.

You will slip into the living-room where ARCOLA stands, sending out its warmth to those radiators and to the kitchen tank besides.

Could there be any more perfect Christmas gift?

ARCOLA is a gift. It costs little at the outset (surprisingly little) and by the end of the third winter it has paid for itself in the fuel saved.

Who offers this gift? Your Heating Engineer whose store is near your home. By his skill and science he has made America the best warmed, most comfortable nation in the world.

See him this week and let him explain his gift—how quickly ARCOLA can be installed and how it will bring to your home the same perfect hot-water warmth which the larger heating plants of this Company give to mansions, cathedrals and even the White House itself.

The red and yellow card at the right is the sign of a Heating or Sanitary Engineer (you used to call him Steamfitter or Plumber) who can show you ARCOLA. Look for it in his window.

It will pay you to consult him twice a year as you do your Doctor or Dentist. His report on your heating and plumbing costs little. It may save much.

**COMPENSATION  
LAW NOT VALID IN  
ADMIRALTY CASE**

## Supreme Court Decides in Favor of Oakland Fuel Company.

## Supreme Court Decides in Favor of Oakland Fuel Company.

The State cannot modify Admiralty laws and employers of stevedores and boatmen working on war-time commerce are not responsible for accidents caused by the negligence of fellow workers, a decision handed down in the United States Supreme court in a case originating in Oakland, made plain.

The ruling was a victory for the Western Fuel company of Oakland, which contended that application of the California Workmen's Compensation law to admiralty cases. The case followed a claim for compensation made by Mrs. Manuel Souza, mother

husband, Manuel, on board the steamer Tancred in Oakland creek.

Souza was killed by the negligence of a fellow stevedore, according to the Industrial Accident Commission, which awarded the widow compensation.

However, the ruling of the State Supreme court held that her relief lay in the admiralty court, and thence

damages. The United States District Court of Appeals affirmed the decision and then reversed itself, and the case went twice to the United States Supreme court, with attorneys from San Francisco arguing it in Washington. There it was finally held that the modification of "fellow service" rules in regard to contributory negligence made for statutes of "California did not apply to admiralty cases originating in California waters.

Freidberg represented Mr. and Mrs. S. L. Lillick and Hartley Peart were attorneys for the fuel company.

In the days of Queen Elizabeth nightgowns were not worn.

## ECOLA MEN, SAFE, TELL HOW STORM SANK SEA EAGLE

Schooner, in Tow When Tug  
Goes Down With Crew,  
Reaches Port.

MARSHFIELD, Ore., Dec. 6.—The schooner Ecola, fears for whose safety were recently expressed in connection with the loss of the tug Sea Eagle, which had had her in tow, arrived in port here late yesterday in tow of the tug Fearless and proceeded to North Bend to load lumber for Australia.

The Sea Eagle, with the Ecola in tow, was swamped by a huge wave, overturned and went down with all on board on November 20 while running for the Columbia river to escape the storm, according to the story brought by the Ecola. There was no opportunity to save any member of the crew owing to the speed with which the tug sank. All

## Warning Given Motorists; Look to Your Headlights

Motorists! If your headlights glare you're in for trouble tonight.

Traffic Inspector Les Manning from the State Motor Vehicle Department, in cooperation with Sergeant Nedderman and a force of local police officers, expects to make a clean-up tonight of headlight law violators.

The State Motor Vehicle Department, according to Manning, has issued a number of warnings on the subject of bright lights, and he says there is no excuse now for any violation of the act which governs proper lighting requirements.

This special squad of state and Oakland officers will also be on duty tomorrow night looking for offenders.

were carried down with her and none were seen afloat.

The Sea Eagle picked up the Ecola November 19 off Cape Blanco, but did not try to get into Coos bay, owing to the rough sea. Next day the storm was much worse, and the tug and schooner were off Yaquina when the disaster occurred.

Following the tug's loss the Ecola proceeded as best she could alone. Her sails were shredded and some were lost, but beyond this no accident occurred during the storm, ensuring two weeks and the fourteen men on board all arrived here well.

## Sleeper in Culvert Is Struck With Stone

William Hewick, 48 years old, was attacked by an unknown man last night while he was sleeping in a culvert at Eighteenth and Wood streets. Without warning, the man hit him on the head several times with a large stone. He was picked up by a passing automobile and was taken to the Emergency Hospital, where he was treated for a possible fracture of the skull. The police could not find any trace of his assailant.

## ACTIVITIES OF WOMEN

### Pre-Nuptial Affairs for Bride Elect

Miss Roberts Belcher, whose wedding to Harold Wilcox Beard will take place in January, is the motif for many affairs planned for the pre-holiday season. Saturday Mrs. Charles Seftens Dodge (Hazel Tietzen) entertained at her home, and on Friday afternoon Mrs. Frederick St. George of San Francisco will be hostess at luncheon and bridge. Saturday evening Miss Belcher and her fiancé are to be the guests of honor at a bridge evening at which Miss Mildred Dodge will be hostess in Berkeley.

Miss Belcher is the daughter of Mrs. Richard Belcher and a graduate of Miss Head's. With her mother she resides at the Hotel Claremont.

News from Seattle received by the bride's sister, Mrs. David Cecil Dutton, tells of the marriage of Miss Marion Weir of Watsonville and Louis Frederick Valle of Denver, Colo. The ceremony took place at the home of intimate friends. Mr. and Mrs. Valle, after a brief honeymoon, will go to Juneau, Alaska, to reside.

The bride formerly made her home in Vacaville and is a cousin of Miss Grace Willson of this city.

Valle is a son of the late Joel Valle, attorney of Denver, and Mrs. Valle, and a brother of Congressman William N. Valle of that city.

### LEAVE SUNDAY FOR NEW YORK

Mr. and Mrs. Isador Jacobs (Jacqueline Horton) left Sunday for New York en route to Europe. They will sail December 13 on the Aquitania for London and will make a three months' tour of the world. En route East they will stop at Chicago with friends and in Washington will dine with President and Mrs. Harding. Mr. Jacobs will attend the disarmament conference on official business.

In compliment to Mrs. Fitzgerald Marx (Margaret Bailey Webster) and Miss Doris Rodolph, betrothed of Harold Hays, Mrs. Hatherly Brittain entertained at a bridge tea this afternoon, the coterie of friends making up six tables. Those playing were Mrs. Fitzgerald Marx and Miss Doris Rodolph with Mrs. Monroe Greenwood, Mrs. Frank Moller, Mrs. Harry Hush Magee, Mrs. Jack O'Neil, Mrs. Herriott Small, Mrs. William Stafford, Mrs. G. H. Herbert, Mrs. Ward Dawson, Mrs. Edward Fennon, Mrs. Edward Von Adelung Jr. and Miss Doris Rodolph, Miss Jessie Knowles, Miss Alice Requa, Miss Joan Cliff Searles, Miss Libby Smith, Miss Ruth Langdon, Miss Laura Miller, Miss Kathryn Maxwell, Miss Elizabeth Allard, Miss Marion Kegan, Miss Howard, Miss Janet Knox, Miss Marlon Lyman, Miss Carolyn Rodolph, Miss Elizabeth Magee, Miss Flora Edwards, Miss Elizabeth Koser, Miss Kathryn Armstrong, Miss Helen Rodolph and Miss Mary Kennedy.

### RETURN FROM VISIT TO SOUTH

Mrs. J. H. Mallett and Mrs. Martin C. Wade are back from the southern part of the state and are at the Mallett home in Claremont for the holiday season. Lieutenant Wade, U. S. N., arrived this week with three boys and many special affairs will be given during the visit of the young couple here.

Other visitors to the bay region over the holidays will be Mr. and Mrs. Cary Stirling Hill and their two little sons, who will arrive this week at the Charles Lovell home in Piedmont. Mr. and Mrs. Roger Haynes will join the family circle at Christmas tide.

Mr. and Mrs. John Henry Russell will arrive from Los Angeles with their little son to follow out their usual custom, a reunion at the home of Mrs. Isaac Requa of the different branches of the family.

Yesterday afternoon the members of the Monday Bridge Club were guests of Mrs. George Rodolph at her home.

### QUAIL SHOOTING GOOD

MODERATE. Quail shooting is great sport in Stanislaus county. A party of seven men led by Dr. E. V. Falk, Tom Hemminger and their four excellent pointers bagged eighty quail during a few hours' time. Dr. Falk, Hemminger, Al Steinman and Jack Irvine got the limit of 15 birds each.

### Co-Lo Restores Original Color to Gray Hair

Co-Lo restores the natural color, life and luster to gray and faded hair in a manner nature approves—a scientific process perfected by Prof. John H. Austin of Chicago, over 40 years a hair and scalp specialist.

### Secrets of Co-Lo Success

Co-Lo is a wonderful liquid. Clear, odorless, greaseless. Without lead or sulphur. Without sediment. Will not wash or rub off. Will not stain hair or scalp. Pleasant and simple to apply. Cannot be detected like ordinary hair tints and dyes. Will not cause the hair to split or break off. Co-Lo Hair Restorer for every natural shade of hair—A8, for black and dark shades of brown; A7, for jet black hair; A6, for medium brown shades; A5, for light brown drab and Auburn shades.

Sold by all Owl Drug Stores

MISS ANNETTE CHUMBECK, who is here from Singapore and with her parents resides at the Hotel Claremont while in the bay section.

### No Cynicism in West on Parley, Mrs. Edson Says

WASHINGTON, Dec. 6.—One of the outstanding women appointed by President Harding on the advisory council to the conference on limitation of armament is Mrs. Katherine Phillips Edson of the Pacific Coast.

When asked what the attitude of the women on the west coast was in regard to the arms parley, Mrs. Edson said:

"Nothing since the war has so deeply stirred them as has this conference. Their belief that it cannot fail amounts almost to a religious conviction. The public schools and women's clubs are organizing special history and civics classes so as to bring about a better understanding of national and international problems. On all sides there is public expression of tremendous interest."

Of course, the west is vitally interested in the right decisions of the policies relating to those countries of the Far East and those bordering on our Pacific ocean. California and the west coast have problems which are sometimes considered by the rest of the country as local. On the point of view and the action we have taken have not only been considered provincial but dangerous to the peace of the world. We ask you to understand our position, and also that of the British dominions bordering on the Pacific.

### "NO CYNICISM IN WEST AS TO ULTIMATE RESULT."

"We know we are the outposts of the Anglo-Saxon peoples and the frontier of the white race. We have no hatred of the Far Eastern people, but respect and consideration. And we firmly believe that coming together as we are at this time, all our differences will be eliminated and justice be done to all. There is no cynicism in the West as to ultimate results."

"One of the purposes of the advisory committee, as I see it, is to bring to our delegates the conclusions and hopes of our people, as well as to get a close contact with the conference as a whole so as to be able to interpret to our constituents the problems that confront our own delegates."

"How do you feel about women on the advisory committee?" she was asked. "Beside the woman's vision and experience, what are you four women bringing to the men?"

"More confidence," she answered promptly. "Women are less fearful than men, they have more faith that permanent peace can be accomplished than men, more faith in humanity and in open diplomacy."

"President Harding, in his desire to serve the people, is trying to bring about international relations that make for peace. We have grasped eagerly at every project that seemed to make for peace. We women believe the time has now come."

### California Auto Trades in Session

BAKERSFIELD, Dec. 6.—Delegates to the California Automobile Trades Association, representing approximately 3000 firms, closed the opening day of the annual convention here last night with a banquet as the guest of the Bakersfield Trades organization.

John O. Davis, president of the California Tax Reduction League, was the principal speaker at the afternoon session of the convention.

A resolution was unanimously passed by the delegates and a copy wired to President Harding endorsing the endeavor to reduce the armament burden of the world.

### Chester Rowell Named On Arms Committee

WASHINGTON, Dec. 6.—Chester E. Rowell of San Francisco, member of the California railroad commission and former appointee to the United States shipping board, is to serve as western regional director of the general committee on limitation of armament. The announcement was made here yesterday by Herbert S. Houston, chairman of the ways and means committee, after the acceptance of Rowell had been received. The general committee is a citizens' organization. It was formed for the purpose of upholding the efforts of the delegates of the United States at the limitation of armaments conference and to crystallize public sentiment in behalf of the aims, aspirations and original spirit of the effort.

### BANKER SENTENCED

GRAND RAPIDS, Mich., Dec. 6.—Herbert M. Pierce, former teller of the Grand Rapids National City Bank, who admitted theft of \$27,000 of the bank's funds, was sentenced to serve ten years in the Federal penitentiary at Leavenworth.

### the costume complete

Many grandes matons of Paris have, this season, created complete costumes for afternoon and evening. A gorgeous wrap to be hung over a gown that matches it, either in material or spirit. Gowns and wraps that repeat a color, a motif or a line.

Some of the loveliest exponents of this modeste shown in the December Harper's Bazar.

Also, sports clothes, new coiffures, clever fiction, gossip of Society, Christmas gifts for children—in all, thirty-two features.

Be sure to get the December Harper's Bazar.

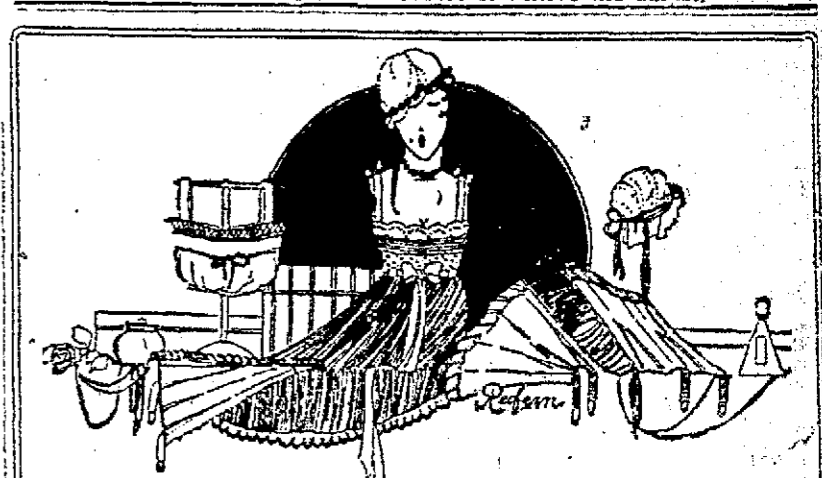

Now on Sale

### Make this her Happiest Christmas

YOUR wife, or mother, or sister might be pleased with any good washer, but with a new Thor-32 she will be positively delighted. It makes the ideal Christmas gift—first, because it is so handsome in its design and gray enamel—second, because every year for years and years your wife will say, "Oh, how thankful I am for this wonderful Thor!"

### \$10 Down Brings It

Ten dollars down and small payments monthly are the very easy payments we offer on every Thor—even this splendid new Thor-32. Don't even think of buying a washer until you see this splendid all-metal wonder washer.

It has the same revolving, rotating cylinder which over 700,000 Thor owners have proved best—and also many new refinements and conveniences. It will do your washing in half the time required by other machines—and is built to last a lifetime.

### Reduced Prices in Effect Now!

No reason to wait any longer. Prices are absolutely down to Rock Bottom. Make this the Big Christmas Surprise from all the family.

## TUESDAY, DECEMBER 6, 1921

### THE FIRST BUDGET.

Upon the opening of Congress yesterday President Harding transmitted his estimate of receipts and expenditures for the fiscal year ending June 30, 1922, and the report of the Director of the Budget. As already forecasted in these columns, the estimated cost of the federal government for the next fiscal year is, in round numbers, \$3,500,000,000. This is \$462,000,000 less than the estimated cost for the fiscal year ending next June 30, and \$2,032,000,000 less than the actual expenditures for the fiscal year ended June 30, 1921.

This is the first time in the history of the Republic that the Executive Department has submitted a complete budget of estimated receipts and expenditures. It is the first time that all the departments and bureaus have submitted their financial statements to a budget director and through him to the President.

Heretofore the several bureaus have drawn up their estimates of expenses, usually about twice as much as they expected to see Congress appropriate, and sent them to the Secretary of the Treasury, who submitted them to the Congress without examination or amendment. The budget-making has theoretically been performed by the appropriations committee of the House, but in reality appropriations have originated from several other committees of both the House and the Senate.

The country will soon have an opportunity to observe how Congress is disposed to treat the budget machinery it created a year ago. The estimates have already been pared by the Director of the Budget. Presumably they represent the minimum the several departments and bureaus believe they can operate with, instead of the maximum they expect to be allowed. There is certain to be a group of congressmen who will fret and rebel against restriction of their authority to modify items of proposed expenditures. They will criticize and obstruct as much as possible.

Also the new budget committee of the House, the old appropriations committee greatly enlarged, will have its first experience in dealing with an executive budget prepared by experts and transmitted and directly sponsored by the President. There is speculation as to whether this committee will insist upon following the former procedure of holding hearings at which it will demand explanations of the various items in the budget; whether it will insist in substituting all along the line its opinion of what should be allowed for the figures of the budget director.

If Congress shows a spirit of friendly cooperation the appropriation act, now to be known as the budget act, should be passed within a couple of weeks, where it formerly consumed months of hearings and debates. Much time will be saved and the country will become convinced that Congress is disposed to abide by the spirit of budget rule as well as the form.

### WASTED SCHOOLING.

In protesting, or even feeling the spirit of protest, against Miss Yuki Furuta, an American-born Japanese student, being accorded class honors she fairly won by scholastic merit, the graduating class of Oakland High School has quite missed the point and the purpose of the years spent in pursuit of an education.

The democracy of scholarship is the purest democracy. It knows no racial distinctions. It cannot tolerate racial prejudice. The Japanese-American girl excelled all her classmates in the academic record of this year's graduating class. At Oakland high class honors are awarded on the basis of merit or student achievement. It is the right method and the one which should prevail in all high schools.

Those students who do not find it agreeable to accede to the decrees of this merit rating have failed to get the biggest thing in a school career—the placing of a premium on industry, intelligence and clean student records; the mental and spiritual equipment which leads one to recognize that the true fellowship of true students imposes no qualifications but scholarly

attainments and moral integrity. Instead they have permitted the spirit of snobbery and eadishness to control their conduct.

The threat that the protesting students will absent themselves from graduation exercises unless their unreasonable and rather foolish action is upheld by the school authorities should trouble no one. The record of all Oakland students will show brighter if their names are omitted from the list of graduates.

### AN AGRICULTURAL PROBLEM.

There is a proposal under consideration at Washington to transfer the Bureau of Forestry from the Department of Agriculture to the control of the Department of the Interior. The motive for this suggestion has not been disclosed. The forestry bureau has been well administered under the Department of Agriculture and at present is exhibiting a larger degree of efficiency than at any time in the past. If a transfer of control is to be made it should follow the most careful consideration by the government and Congress. Rivalry among departments to increase their power and patronage should not alone dictate the change.

American forests and forest lands comprise a large property. The United States produces more than half of the entire lumber cut of the world and ninety-five percent of the total cut is used at home. The cut-over area is being increased by from 10,000,000 to 15,000,000 acres annually. Railroads require 125,000,000 cross-ties a year. The paper consumption is about 125 pounds per capita a year and this paper comes largely from wood. Well kept farms use on an average of 2000 board feet each year for repairs and improvements. The Florida citrus crop requires 15,000,000 boxes or crates of 5 1/2 board feet each, every year. The California fruit and vegetable crop takes more than Florida.

Colonel W. B. Grealey, chief forester, in discussing the timber situation in a recent bulletin, says that the problem in a nutshell is the enormous area of forest land which has been so logged and burned that it is producing little or nothing. "We have more than 80,000,000 acres of such land, an area greater than all the forest lands of France, Belgium, Holland, Denmark, Germany, Switzerland, Spain and Portugal, which have been denuded to the point of absolute idleness so far as the production of any timber of commercial value is concerned. We have other enormous areas of cut-over land now growing but a fraction of the amount of timber which they might produce. The situation cannot long continue without grave consequences. If we are to remain a nation of wood users, we must become a nation of wood growers. By some means or other we must see to it that forest lands not needed for agriculture are not allowed to lie idle, but are kept at work growing timber."

Herein is indicated a future policy which the government cannot escape or long evade. It is the policy of reforestation and a closer scrutiny of timber stands to guard against useless cutting or destruction of the smaller trees. The problem of the reproduction of forests is essentially an agricultural problem. It calls for the services of trained scientists and men of vision such as the agricultural industry provides and such as cannot be found in a government department that specializes in political preferences.

Moreover, the forest areas are not merely a reservoir of marketable timber. They are natural reservoirs for the water that feeds rivers and streams for irrigation of farm lands and the transportation of farm products. They provide grazing for several million head of cattle, sheep and hogs, thus constituting in another way an important factor in food production.

For some reason or another the Department of the Interior has never contributed notably to the public service in connection with problems already long under its control and with which it has had considerable experience. The Department of Agriculture is specially equipped with trained men to handle agricultural problems and inasmuch as the forest problem is essentially an agricultural problem and destined to become of rapidly increasing importance to agriculture, the burden would seem to rest upon the government to make out a clear and sound case for the proposal to transfer the forestry bureau to the control of another department.

Farming interests as well as timber interests should keep an eye on Washington and make sure that they are not caught asleep by this proposal to tamper with the federal forest service.

Another stunt airplane flyer is dead. He left an airplane at 1200 feet altitude by the parachute route, lost his grip and was picked up a lifeless pulp. This happened in San Francisco Sunday before several thousand people who had gathered to witness spectacular maneuvers in the air. Some will charge the tragedy to accident, to foolhardiness or to inexperience. But the real cause is the patronage of such stunts as this by people seeking a thrill. If there were no people to look at stunt flying there would be no stunt flying.

Easy marks, German marks and Karl Marx are outstanding phases and influences of present economic and political conditions in Europe and Russia. The German marks have lost practically all their standing and the other two ought to be eliminated entirely.

## NOTES and COMMENT

A despatch states that forty "Coucher college" girls have practically agreed that there is no such thing as a perfect man. Without stopping to consult the map as to "Coucher," we hasten to express wonder at this absence of faith. Almost any assemblage of forty matrons might come to that conclusion—probably have—but the college maidens were believed to take a more hopeful view of masculinity.

A stunt flyer contributed to Sunday's facilities. Aerial flight has long ceased to be a novelty, and to get the populace to look aloft the performer has to do breakneck things. These add nothing to the knowledge of air navigation, of which there cannot be too much, and only entertains for a moment those who seek for thrills in feats of useless daring. Stunt flying incurs needless risks, and a public that supports it should share the blame when a fatality occurs.

There is a difference of opinion between District Attorney Brady and Mr. Arbuckle. The latter is reported to have asserted that the jury's stand amounts to a moral acquittal, and the prosecutor declares the comedian "is not vindicated." The public may regard these antagonistic views with interest, but without doubt is still relying on its own ability to size the situation up.

The controversy over the corset goes on and the decision isn't in yet by a long way. The health commissioner of Greater New York now comes forward with the dictum that the corset is a "health utility." This will be a satisfaction to the proponents of the well-known garment, and confusion to those other persons who like to tell how much more sensibly mother dressed than do up-to-date ladies.

Has the gubernatorial campaign for 1922 begun? Despatches tell about the Governor branding thirteen lawmakers of the Los Angeles legislature as a menace to the State. Generally when the branding of opponents to the prevailing administration begins it means the unleashing of political guns and the bringing forth of ammunition preparatory to an impending set-to at the polls.

The New Jersey man who raises a crop of watermelons in December may attract the attention of prohibition enforcers. Such melons will bear looking into, it should be borne in mind that Jersey is a State that is far from reconciled; that it has a governor who is overtly ferocious. There is a possibility that at least a Burbank feat has been pulled off. For orthodox watermelons in December are not reasonable.

More or less ungallant item from the Stockton record: "An hour glass set to run three minutes has been adopted in some sections to warn the long-winded when time's about up at the telephone. But, dearly beloved, it will take something with more sand than an hour glass to make the gentle woman at the other end let go after she gets her second wind and is about to get a crash hold on the middle of a story."

"Vienna banker short in his accounts." Why go so far abroad for such news? Though not many such instances occur in this country, where are greater opportunities than can possibly exist in Austria, examples may be found. It is doubtful, however, if they would get into the news if they were not of greater volume than this one is reported to be—\$6,000,000 kronen, or \$1666 in real money.

The effort to recall the town of Albany's clerk failed. The recall never succeeds. There was a notable instance of its getting past in the recall of the Governor of North Dakota; but for the most part the electorate isn't sympathetic with such attempts. And generally it doesn't take the trouble to inquire into the merits of them. It simply doesn't like the system.

### SPIRIT OF THE STATE PRESS

The adoption by the Merced Irrigation district by a 2 to 1 vote of a \$12,000,000 bonding proposal for the storage of water for 180,000 acres signifies that the region is alive to the value of irrigation, even at enormous cost. It is also an example of courage, confidence and enterprise.—Chicago Enterprise.

Nine carloads of oranges were shipped from the Oroville district Sunday (November 27). This is one of the largest shipments of ripe oranges to go East from the local district in a single day this season.—Oroville Register.

Even if the jury could not convict "Fatty" Arbuckle it has been shown how easy it is for a man with money to make Volstead look like a person who never studied law.—Hanford Sentinel.

Twenty mules make up the pack train carrying freight and the parcel post between Bald Mountain and Hooper. Horse teams do the hauling. Korbelt to Bald Mountain, the horse and mule trains carrying about 6000 pounds of mail and freight each trip.—Eureka Times.

In choosing Chico as one of 10 California cities in which expansion will be made in 1921, the Shell Oil company exhibits recognition of a growing field and a natural center.

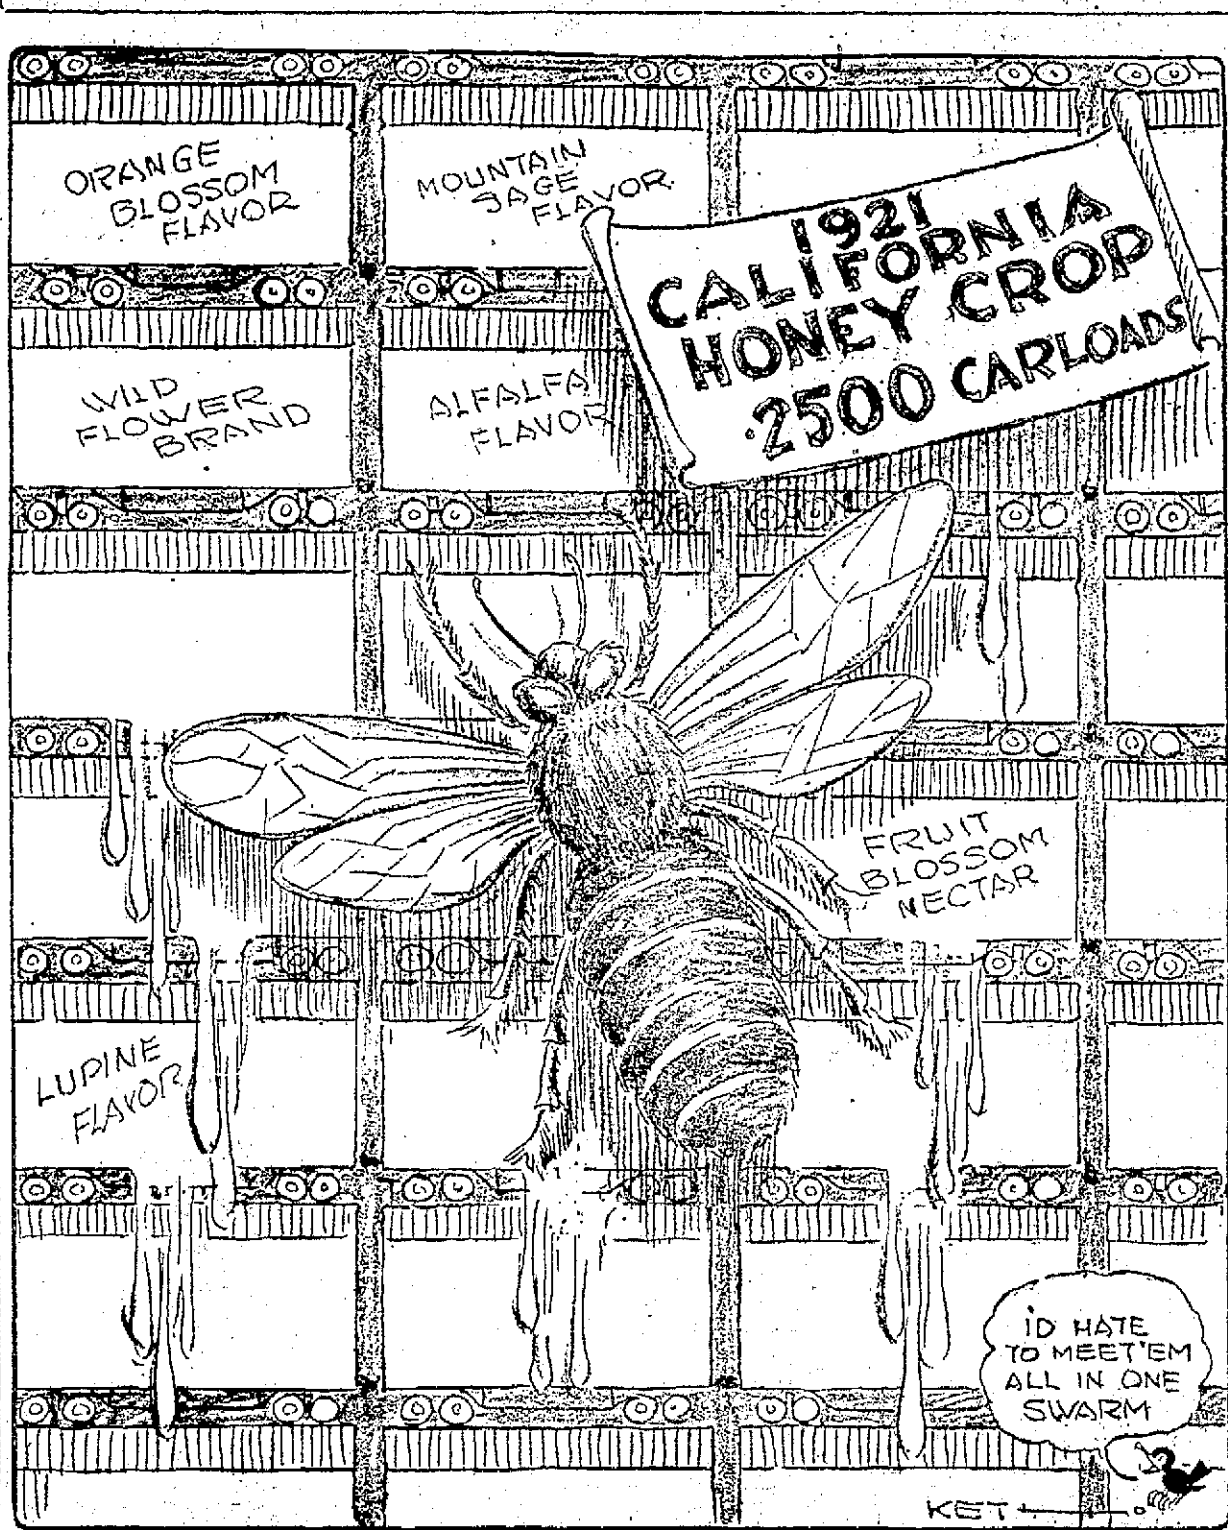

### SOUR MILK AND LONGEVITY.

In a village of 120 population in the Daghistan Republic there are found eighteen centenarians. They live on sour milk of cows, cheese from goats' milk, while bread and nothing else. Whether centenarianism is a matter of debate for reasoning minds.—Brooklyn Eagle.

### WHEN THE CATS AWAY.

With all the foreign generals in America this holiday season it is good time for everybody to start a war in Europe.—Late.

## FOR THE WORLD'S SWEET TOOTH.

## JUST FOLKS: By EDGAR A. GUEST

### BULB PLANTING TIME.

Last night he said the dead were dead  
And scoffed my faith as scorn,  
I found him at a tulip bed  
When I passed by at morn.  
"The pulse of life I cannot feel,  
The skin is dried and brown,  
Now look!" a bulb beneath my heel  
I crushed and trampled down.  
In anger then he said to me:  
"You've killed a lovely thing;  
A scarlet blossom that would be  
Some morning in the spring."  
"Tis time to plant them now," he said,  
"If they shall bloom in spring."  
"But every bulb," said I, "seems dead  
And such an ugly thing."  
"You trampled on the dead of mine  
(Copyright, 1921, by Edgar A. Guest.)

## FIVE POPULATION CENTERS

What are the five most populous "urban communities" in the United States?  
The question sounds stilted, a bulletin from the National Geographic Society admits, but the term refers, it is explained, to something entirely different from "the five largest cities." For some purposes it is more useful to know where the greatest numbers of city dwellers are gathered together than to know how many live inside arbitrary political divisions. Continuing the bulletin says: "The term 'cities' is used loosely, the United States is in the strange position of having two that rank fourth and two that are fifth in size, although these communities are of different magnitude. The mix-up is due to the artificial thing, the city limit. People in establishing their homes have shown a fine disregard for considerations of taxation—and have built on either side and even astride them. There are many places where city boundary lines run directly through blocks or along busy streets, leaving outside regions as populous or more populous than those included. Yet when the population of the city is being ascertained, only the houses inside the imaginary line are counted.  
To clear up the difficulty and bring out the really important fact—where the greatest concentrations of city-dwelling populations are to be found—the United States Census has gathered statistics not only for city political divisions but also for metropolitan districts. These latter include the entire urban communities made up of the big cities inside their political lines and also the city districts drawn closely around them though outside the arbitrary boundaries. The figures obtained for these population units strikingly alter the rank of the cities.  
The first three places are held by New York, Chicago and Philadelphia under both systems of enumeration. But while Boston, the political division, ranks fourth, the metropolitan district jumps to fourth place and the Detroit metropolitan district takes the sixth position. The population figures show that within a rough circle drawn from the center of 'circle' the distance of between ten and fifteen miles there are in thickly settled communities 1,772,254 inhabitants.  
A similar 'circle' drawn around Detroit in United States territory there are 1,155,153 inhabitants. If the entire population of Wayne county in which Detroit is situated were counted in the Detroit district, and if the populations of the four and five counties grouped around Detroit were added, the population would still be less than 1,400,000. Though the average radius would not be increased to nearly 30 miles, the increase of the radius around

### HOW TO BECOME AN AROTTIC EXPLORER.

Vilhjalmur Stefansson writes as follows:

"I lived for fifteen years in Pembina county at the northeast corner of North Dakota, and as a small boy I used to go two and a half miles to the little red schoolhouse to a temperature as low as I have ever seen it in my journeys along the coastline of over the moving sea to the polar regions. All the other boys and girls did likewise and none of us realized that we were heroes doing it. Since then, much better dressed and outfitted and in every way better able to take care of myself, I have done the same thing as a polar explorer, and have been counted a hero for doing it. At my birthplace in Manitoba the minimum government record is 55 degrees below zero, one degree lower than in the polar coast of North America. Accordingly, if you happen to be living in Manitoba or Dakota or Montana and want to become a polar explorer, about all you have to do for a proper outfit when you start north is to leave at home a few of your clothes."—The World's Work for December.

## about YOUR HEALTH

Why a Mixed Diet  
Is the Safest for Most of Us.

By ROYAL S. COPELAND, M. D.,  
Commissioner of Health,  
New York City.

Cellulose is the substance which makes the skeleton or framework of plants and vegetables. It forms the firm and resistant fibre so pronounced in vegetables—celery, for instance.

Cellulose will not dissolve in water. Strong acids will dissolve it, but the ordinary solvent has no effect.

Whether or not a vegetable food is easily digested, depends on the amount of cellulose it possesses. Likewise it depends on the particular kind of starch making up its bulk.

For some unknown reason, some starches are more readily digested than others. This is not to be wondered at, because animal food differs materially in its digestibility. For instance, lamb digests more quickly than pork. The valuable protein part of vegetables, the building material of food, is more or less buried in the cellulose and starch.

In order to get enough real food out of the bulky and cellulose-filled vegetables, the stomach is loaded with worthless materials. The juices of the stomach are powerless to penetrate and digest the fibrous framework.

When an indigestible item is taken into your stomach, that poor organ works in vain, attempting the impossible. The only value coarse cellulose possesses is to give greater substance to the waste products and thus to excite the activity of the intestines.

Cooking the cellulose may soften it sufficiently to permit bacterial action. This is followed by gas formation in the intestines. The starches and sugar also ferment and add to the intestinal discomfort.

Some foods may be taken raw and cause no trouble. When cooked, the bacterial action on the cellulose results in physical changes which cause pain, nausea and possibly vomiting. Cabbage is one of the vegetables reacting in this uncomfortable way.

Potatoes have little cellulose and contain a starch which is readily digested by almost every stomach.

You must study the effects of the vegetables you eat. When you find a vegetable which gives you distress, it should be omitted from your diet. Because your mother and the rest of your family can eat a certain vegetable, is no evidence that you can digest it. If you find it upsets you, don't repeat the experience.

What I have said about the unpleasant effects of certain vegetables must not turn you against these valuable foods. Vitamins, iron and other essential minerals are supplied by vegetables. Babies get their vitamins from milk, but adults depend largely on the vegetable world for them.

Nothing in life is more important than the choice of food. Unless you are properly fed your body doesn't develop, your skin is muddy and your health is impaired.

A mixed diet offers the safest and most satisfying sort of food. Too much of any one article of food to the exclusion of sufficient amounts of others, gives the body too great quantities of certain substances and may rob it of essential elements. You may starve even though your stomach is filled.

You may starve for the want of certain elements just as surely as you can starve for want of food.

### TODAY 20 YEARS AGO

Rev. Dr. Dille will give a lecture this evening at the First M. E. Church, on "Switzerland and the Rhine."

The annual banquet of St. Andrew's Society took place last evening in Reed hall.

It is announced that Lissner hall at Mills College will be dedicated on December 11.

The children of Lafayette, Bay, Franklin, Grant and other local schools will be given free tickets to the poultry show, now on at the Exposition building.

Women have been excluded from the jury because of the character of the case.

The defense pleaded that with the exception of the report of the lord's death, all statements made by the News were true. The obituary lamented Douglas, saying that he was from the best society and showed brilliancy as a poet, but lacked essential attributes. It declared:

"Charity, which is most fitting when speaking of the newly dead, urges that much should be forgiven this poor man, who perhaps will be remembered only because of the quarrels and scandals in which he was involved. It was great to be born a Douglas, but the family inheritance had gifts from the evil fairies as well as from the good ones."

The obituary, continuing, said that marked signs of degeneracy had been noted in the house of Douglas, and recalled Lord Alfred's alleged relation with the noted writer, Wilde.

Counsel for the plaintiff admitted that Lord Alfred "had been misguided enough to become the constant companion of Wilde," but maintained that "in England a man is allowed to repent the follies of his youth." The lawyers pointed out that Douglas was only 24 years old at Wilde's death and that he had changed his notions, saying he was ashamed of the letters he wrote in defense of Wilde in connection with the latter's conviction in 1895.

**MARTINEZ BOARD  
RELEASES FARLEY  
AS CITY ENGINEER**

## Board of Trustees Votes to End Controversy of Long Standing.

MARTINEZ, Dec. 6. — The city trustees last night voted to end the contract of W. S. Farley as city engineer and appointed in his place E. H. Green, until then superintendent of streets.

The release of Farley ends a controversy of long standing and a condition which the trustees have held for some time. It was felt that it was made to dispense with Farley's services, but it was found that it could not then be done without violation of his contract with the municipality.

Since that time paving contracts in which Farley was interested have been completed and the board took away all advantage of the fact that the work was done.

Green had been instructed to prepare plans and specifications for \$200,000 worth more of paving to

**BEAUTY SPECIALIST**  
**TELLS SECRETS**

**TELLS SECRET**  
A Beauty Specialist Gives Home-Made Recipe to Darken Gray Hair.

Mrs. M. D. Gillespie, a well-known beauty specialist of Kansas City, recently gave out the following statement regarding gray hair:

—Anyone can prepare a simple mixture at home that will darken gray hair and make it soft and

glossy. To a half-pint of water add 1 ounce of bay rum, a small box of Barbo Compound and  $\frac{1}{4}$  ounce of glycerine.

Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and will not rub off.—Advertisement

# COURT ACTION IN BRIDGE PROJECT IS THREATENED

S. P. May Be Compelled to Pay Share of Webster St. Improvement.

Determination to make an effort to compel the Southern Pacific company to carry out its agreement to pay one-half of the expenses of a bridge or to build under the estuary at the present site of the Webster street swing bridge, was expressed today by members of the Board of Supervisors and the Alameda Chamber of Commerce.

This action will be the direct result of a special conference yesterday between representatives of the two organizations which was held following receipt of information that the railroad company did not care to go ahead with construction of a cross-over for the use of both pedestrians and trains by June 30, 1922, the date set by the War Department for the removal of the present bridge.

Representatives from Alameda expressed themselves in favor of taking some action to hold the Southern Pacific company to the agreement even if it is necessary to go to court over the matter. The district attorney is said to have declared that the agreement between the county and the railroad company is binding.

A meeting between a committee from the board and the railroad officials will be held at some early date to discuss the project. It was announced by William J. Hamilton, chairman of the supervisors.

At the regular meeting of the board the report of Coroner Grant D. Miller for the month of October was received and filed, showing a total of 54 deaths, 22 of which were from natural causes and 22 from accident or suicide.

Joseph B. Caine, whose resignation as director of the Oakland Chamber of Commerce takes effect on the first of the year, was elected a member of the California Development board. The appointment is for a year.

# PREACHERS HEAR J. W. BROUGHER

Dr. J. Whitcomb Brougher, pastor of Temple Baptist church of Los Angeles, addressed the regular meeting of the San Francisco Bay Baptist Association at the First Baptist church, Oakland, this morning. He gave his famous lecture, "Keys and Keyholes," which, since he addressed pastors only, could well have been termed "Pertinent Points to Preachers."

Adapting the lecture to suit his audience, Dr. Brougher declared that the successful preacher is the man who develops all his powers to a degree of extraordinary efficiency and uses them all in the service of mankind. The laws for successful ministry, he declared, are the laws of adaptation, cheerfulness and confidence, concentration and enthusiasm and love and service. With these combined with the love of God and right, anything can be successful, Dr. Brougher said.

Dr. Brougher is in Oakland to lecture tonight at the Oakland Auditorium, as one of the features in a series of entertainments given by the Oakland Ministers' Union. His subject tonight will be "Chasing Rainbows."

# LONDON ANKLES NOW TRIMMED IN BLACK GARB

LONDON, Dec. 5. (United Press.)—Feminine ankles apparently have gone into mourning. The bright red, green, blue or tan silk stockings that used to brighten London streets have disappeared.

Stroll along Bond street or Regent street any afternoon and for every gay pair of ankles you see you will count at least four black ones.

The disappearance of the bright colors is credited to the sudden craze for black that is sweeping through the dress world, a craze that is largely ascribed to stocks of black material accumulated by the great Paris houses for purposes of mourning during the war and which the houses are now attempting to unload.

# Water Rates Raise Protested by Club

Protest at a raise in water rates and pledge of co-operation with other organizations taking such action was made at a meeting of the Oakland Central Improvement Club at the Technical High School auditorium last night. The club will be represented at the hearing before the Railroad Commission in Oakland City Hall on January 10.

Mr. Peterson addressed the club on the park purchase program questionnaire, which has been circulated. Mrs. M. S. Henton, H. S. Henton, C. Knutson, Mrs. May Samuels and Mrs. A. S. Sauton were appointed a committee to visit the proposed sites.

A committee to report on cross-town transportation was appointed to include F. H. Blanchard, J. W. Pearson and E. Knips.

H. S. Henton, president, presided as chairman.

# Oakland Public Schools Observe Education Week

Pupils, Parents and Teachers Will Be Brought Into Close Contact.

To show what has been accomplished by Oakland's school system and what is necessary to increase the scope and effectiveness of its endeavors, this is the cause to which the Board of Education has dedicated itself for American Education Week, which is being observed by schools and educators throughout the country and which closes next Saturday.

"Open House" prevails in Oakland's more than fifty schools. The pupils and their parents and teachers are being brought into close contact. The parents are obtaining a "close-up" of modern educational methods, what they are accomplishing and what still can be accomplished through closer cooperation between the parents and the educators.

**SPECIAL DEMONSTRATIONS.**

In addition to this the pupils are offering special demonstrations of their work, recitations, class drills and other concrete examples of their varied activities.

Among the programs are stereoscopic lectures, dramatic skits, exhibit, concerts, both instrumental and vocal, and lectures on varied subjects by pupils and members of the American Legion and educators.

Among some of the events being offered by the schools are: Cities and history work demonstrated at the Lincoln school by classes organized along lines similar to the Senate and House of Representatives.

The Lives of Great Americans, by the students at Alameda school through the medium of pictures and dramatics.

The Bay school's program includes classes, exhibits, concerts and a mock court session. Several of the pupils have been shown applying for citizenship papers.

**RED CROSS FAIR.**

The lives of the ancient Greeks will be portrayed by the pupils at the Grant school.

Lockwood school is holding a Red Cross fair and will make demonstrations of social service work done in the schools.

Longfellow school will give a special evening to fathers and mothers. They can help Young America.

Clarendon school is to give a dramatic evening, showing the progress made by the classes in English. The offering is called "The Soap-Box Opera" and is said to have a "punch."

At Jefferson school each afternoon throughout the week demonstrations of school activities will be given. On Monday a concert by the school orchestra. Tuesday evening the Civic club of Jefferson community will be addressed by a member of the American Legion.

**MOTHERS TO VISIT.**

In Peralta school the Mothers' club is taking a leading part in the celebration of the week, and will visit the school on Thursday afternoon to observe all the different departments at work.

Cleveland school has open house during the entire week, and on Thursday afternoon stages a program of music, both orchestral and choral.

Fruitvale school on Thursday evening will hold a patriotic assembly addressed by a member of the American Legion and during the week will hold open house for the demonstration of regular classroom work.

# OAKLAND MEN ACCUSED BY DRY RAIDERS

SAN FRANCISCO, Dec. 6.—Sixty-eight informations, involving 128 defendants, the largest number ever filed in the federal court at one time, charging violation of the Volstead act, were filed on Monday by U. S. Attorney McCormick, special assistant to the attorney general. Thirty of the accused are residents of Oakland, Alameda and Contra Costa counties.

Among those accused in the information are: Joe Balagano, Al Larkin, Joe Larkin and H. A. Larkin, all at 600 Broadway, Oakland; Casper Laurila, 1839 Sovol street; Albert Grogono and John Borgullo, 1751 Sixteenth street; William Cranford and Jerry Sturam, of 369 Twelfth street; George Lyons, 514 Deering; Bernice Brown, of 1740 Seventeenth street; Manuel Franco, 1525 Fifth street; William Sarcom, 383 Willow street; William Gilbert and C. G. Davis, 816 Lydon street; Antonio Cabral, 1002 Webster street; B. T. Bush and J. P. Bush, 1607 Telegraph avenue; D. B. Gillett and German Veras, of Twelfth street; Albert E. Kennedy, 1301 Hill street; and H. J. Peterson and E. D. Peterson, 1800 Park street, Alameda; J. J. Owen and J. J. Crenney of Albany; and Robert Crenney of Livermore.

# School to Observe Educational Week

Jefferson School Community Center and the faculty and students in the Jefferson school will unite in a program on Thursday for celebration of Education Week. J. Porter Shaw, representing the American Legion, will deliver the address. His subject will be "American Ideals." A program of songs will be offered by Mrs. Irma Randolph, who will also lead the community singing.

Children of the school will present a song from "The Angelina." They will also give several choruses.

Beginning with January, the recently organized community center will meet on the second and fourth Thursday nights of each month.

**Incarceration Cuts Liquor Jail Term**

SAN FRANCISCO, Dec. 4.—James Conlay, a waiter at the Hotel Belmont in Oakland, arrested November 24 for selling wine, was sentenced today by Federal Judge Dooling. He told the court some one had given him the wine for Thanksgiving. He had been in jail ever since his arrest. The court gave him 15 days in prison, which was from the time of his incarceration. He will therefore be released on Thursday.

# JAPANESE HAVE THREE HOMES IN CAPITAL OF U. S.

Small Nippon Is Maintained by Officials From Empire.

By DAVID L. BLOMENFELD, United Press Staff Correspondent.

WASHINGTON, Dec. 5.—Japan has three homes in Washington today. Officialdom, apart from the Embassy itself, lives in a beautiful home on Dupont Circle, the Shoreham hotel, houses the clerks and officers of the military and naval attaches, while the Japanese club on Sixteenth street constitutes the real home of the little men from Nippon.

There of nights, you may see frosted diplomats smoking their long Japanese pipes, with their miniature bowls, for all the world as if they were sitting on the mat of their own homes in far away Tokyo.

Outside the club, a Japanese temple lantern glows through red latticed windows while in the upstairs rooms of the club such delicacies as "Noshi" (fried seaweed) and raw fish are eaten with all the gusto and mannerism of a restaurant in Nara or Nikko.

The Japanese are nothing if not smart. They take pride in their turnout. From Ambassador Shidehara, kindly-faced and smiling, down in the very minutest clerk, everything is spick and span. Motor cars line round corners in Washington streets filled with top-hatted Japanese. In government offices and the little men get in order of seniority much as a steamboat load of naval officers give way to the oldest among them on landing.

In Dupont Circle, the "official delegate home" goes on unceasingly. Phone "bells" ring, typewriters click, breakfast is served in one room, a group of newspaper men are interviewing Admiral Kato, maybe another group of diplomats are discussing the very minutest of Japanese. There is never a dull moment up there where the Japanese flag hangs rippling in the wind from the big bay windows.

**HALF MILLION IS BEQUEATHED BY FISH KING**

SAN FRANCISCO, Dec. 6.—The will of A. Palafrin, known as the fish king, who died several days ago, was filed in probate in the Superior court today by the First Federal Trust Co. It is reputed to be worth approximately one-half million dollars to the widow and children.

# Chamber Orator to Speak at Antioch

The first engagement of the newly reorganized bureau of the Oakland Chamber of Commerce will take place tonight at Antioch.

N. J. Whalen of the Coast Tire and Rubber Company will represent the bureau at a dinner at the Antioch Chamber of Commerce, and will speak on the relation of Oakland to the up-river city. Whalen will be accompanied by Holmes Ives of the same company.

The speakers' bureau is meeting weekly on Friday nights. Already there is an enrollment of about twenty under the instruction of Dr. Dwight C. Watkins, professor of economics at the University of California. The classes are held in the Chamber of Commerce offices.

# Girl's Elopement Feared by Mother

State-wide search has been instituted for Miss Dorothy Tufts, also known as Dorothy Wilson, a telephone operator of Napa, who disappeared from her home on Sunday night. According to her mother, Mrs. L. Preston of Newman, the girl was last seen in an automobile truck with a man and the mother fears an elopement. The girl is 15 years of age, and is described as 5 feet, 2 inches in height, weight, 115 pounds. She is a blonde and wore a one-piece black dress, with a white collar, a long brown coat with fur trimmings and no hat.

# Policemen Praised For Efficiency

A letter of appreciation for the "courage and diplomacy of Patrolman M. J. Jones during a recent episode where an alleged drinker caused a disturbance in the St. Mark hotel, was received today by Commissioner Frank Connelley from Al. J. Greenhead, chief of the hotel management. It is asserted that Enos and the other patrolmen handled the situation with satisfactory dispatch and efficiency. Enos has been sent a copy of the letter.

# War Tax on Railway Tickets Ends Jan. 1

The 8 per cent war tax on all railway tickets will end on January 1, 1922, according to an announcement today from the local offices of the Santa Fe Railroad company. The instructions were received here this morning from A. H. Higdon, district passenger agent, from John J. Byrne, passenger traffic manager of the road, that no war tax would be collected after the first of the year. This also covers tax on baggage charges. It was pointed out.

# When You Think that you cannot take cod-liver oil, the evidence is clear that you have not taken Scott's Emulsion

recently. It's as rich as cream, only more easily assimilated and is pleasant to take.

# MY FAVORITE STORIES

IRVIN S. COBB The Right Place to Send It.

Three times within the space of one week a vaudeville actor, well known socially on Broadway and better known professionally on the road, was escorted to the same police station and booked on a charge of intoxication. On each of these occasions friends who had learned of his embarrassing position bailed him out. Late Saturday night he was brought in again, with a policeman supporting him upon either side.

As they held him upright before the station-house desk, the offender fixed a wavering eye upon the face of the lieutenant who sat facing him.

"Ello, loot," he said thickly, "got any mail here for me?"

(Copyright 1921.)

# Defiant Speeder Is Fined And Then Sentenced to Jail

SAN LEANDRO, Dec. 6.—A. D. Shaw, dealer of weights and measures of San Benito county and resident of Hollister, was found guilty of speeding through San Leandro at the rate of 47 miles per hour and sentenced to pay a fine of \$37 and serve a term of 15 days in the county jail by Judge William J. Gannon here yesterday afternoon.

The verdict was rendered by Judge Gannon after a careful review of the evidence which showed that Shaw had been arrested on September 23, arrested in Hollister on November 5, and finally brought into court here on November 2 to plead not guilty to the charge.

The case was appealed by the attorneys for Shaw, the bail being set at \$300. Every effort was made on the part of the defense to connect Shaw, the leading attorney, Dan O'Donnell of Hollister, first submitting a demurrer, which was overruled; next a petition for dismissal, which was denied; and finally filing a motion for the arrest of judgment. As a last resort, the case was appealed.

Assistant District Attorney Frank Shaw prosecuted the case for the people. District Attorney Ezra DeCosta was in the courtroom, but did not take an active part in the proceedings. The Shaw case will be made the first case in the war against speeders recently launched by the district attorney's office, states Shaw.

It was established that the crux of the whole case lay in the fact that Shaw, acting on the advice of "Red" Griffin, speed officer of San Benito county and guest of Shaw at the time of his arrest, refused to sign the original appearance card offered him by the arresting officers, Joseph Brandon. In summing up his case, O'Donnell commented on the good reputation of Shaw in Hollister and of the fact that he had been misled by "bad advice," asking for a modified sentence in view of this, and further stating that the judge's decision would greatly effect the defendant's mother.

Judge Gannon in rendering his decision stated in part: "In most cases the greatest burden of the penalty is borne by parties other than the guilty ones. Shaw is a grown man and should think for himself; he should not be misled by the advice of a man who should not, in any event, be a traffic officer of any county."

# MUSIC PART OF COLLEGE PROGRAM ALAMEDA TO HEAR CONCERT TONIGHT

Uda Waldrop of San Francisco, formerly organist at Mills College, is contributing a large part toward the Mills College endowment fund by arranging the program which will be the afternoon feature of the Christmas festival and bazaar sponsored by the Mills Club of Alameda county, on Friday at the Hotel Oakland. The alumnae women have made elaborate preparations for the sale of holiday novelties, which will be held in the rose room and for which no admission fee will be charged. For the entertainment in the ivory ballroom, however, a door fee will be asked to swell the endowment fund.

With Waldrop himself opening the musical program he has enlisted as assistants his wife, Mrs. Margaret Raas Waldrop, Charles F. Bulloff, Mrs. Patricia O'Connor Morbio and Mrs. Minna McGauley. In a reading, Mrs. McGauley will have for accompaniment the Arion Trio, including Miss Josephine Holub, violin; Miss Joyce Holloway, piano; Miss Margaret Avery, cello.

The program follows in full:

(a) Nocturne by Frederic Chopin. Uda Waldrop.

(b) Dance of the Water Spirits. Uda Waldrop.

(c) Spry. Uda Waldrop.

(d) A Fairy Lullaby. Uda Waldrop.

(e) The Little Girl's Lament. H. Lohr.

(f) Song. Uda Waldrop.

(g) Stout. John Alden Carpenter.

(h) The Little Girl's Lament. H. Lohr.

(i) Folk songs of Somerset. Uda Waldrop.

(j) The Seagull and the Crow. Norton.

(k) The Canoe. Uda Waldrop.

(l) The Lesson With the Fan. Uda Waldrop.

(m) Thomas Bailey Aldrich. Uda Waldrop.

(n) Mrs. Minna McGauley.

(o) Accompanied by the Arion Trio.

Dr. Aurelia Henry Reinhardt, president of Mills College, will present the Friday night program. She will read a story by Mrs. J. J. Preston, which concerns itself with Christmas in a little Italian town some 700 years ago.

# WOMAN GRANTED DIVORCE DECREE FROM BIGAMIST

Deserted by her husband, Robert S. Case, after he had committed bigamy, Mrs. Ethel Margaret Case was granted an interlocutory decree of divorce by Superior Judge A. J. S. Sure, who denounced the conduct of the husband. Because Case is in Ontario, Canada, outside the jurisdiction of the court, Judge S. Sure was unable to award Mrs. Case any alimony. To issue a warrant for his arrest for wife desertion.

According to Mrs. Case her husband disappeared from home about a month before the birth of their fifth child in as many years. She advertised for him, thinking he might have been hurt. A few days later a Mrs. Maude Guerrero answered the adverse paper, saying that she had married Case two weeks before and that Case had told her he was going to Ontario when he left.

Mr. and Mrs. Case were married in San Diego January 21, 1914, and he deserted her on August 29, 1918. Mrs. Case is only 24 years old.

Jury imported about 210 million square yards of cotton piece goods last year.

# 35-POUND CAT IS BAGGED ON SKYLINE ROAD

Jeff Sams went hunting for cotton tail rabbit along the Skyline boulevard yesterday and bagged a thirty-five pound cat, now on display in Lulu Frank and Photo shop at 1535 Twenty-third avenue.

Sams, who resides at 2172 Last Twenty-fourth street, fired both barrels of his shotgun, loaded with number 6 shot, and was finally forced to kill the cat with the butt end of his gun.

# Wife Wrote Other Men, Suit Charges

While it is a commendable thing for a wife to delight in writing love letters, even after marriage, it is not so praiseworthy when they are written to another man than her husband, declared Harvey Turner in his suit for divorce from Mrs. Ruth Turner. After a turbulent married life, Turner says, he discovered his wife was writing to another man and so left her on November 13. Turner also accused his wife of telling a falsehood when she said she was a widow when he married her on July 23 of this year.

# JOHN W. RYLAND, BENEFACTOR OF EDUCATION, DIES

Grandson of First California Governor, Donor to Public. Loses Battle for Health.

SAN JOSE, Dec. 6.—John Wallace Ryland, one of San Jose's best known philanthropists, a grandson of Peter H. Burnett, the first governor of the state of California, died at his home at 464 South Fifth street, for several months past the health of the 82-year-old man had been steadily failing. He had been under the constant care of a physician.

He was born 62 years ago in San Jose and here he spent most of his life. He was graduated from the law department of the University of Santa Clara, but engaged in active practice but a short time. He served four years as postmaster of San Jose and later as mayor of the city, during the death he was president of the Ryland corporation.

Although the deceased is understood to have owned large sums of money, the extent of his philanthropic activities will never be known. In this respect, he took pains to keep his affairs private. He was a member of the University of Santa Clara, it is known, has received several endowments from his family. Mrs. Ryland was the daughter of the late John W. Ryland, who was president of the Ryland corporation.

His father, his father, was prominent in early California political history, having been a candidate for governor of California and U. S. senator for California. The daughter of the late John W. Ryland, was the first governor of the state of California, and as such official when San Jose was the capital of the state.

John W. Ryland, deceased, was two sisters, Miss Norma Ryland of San Francisco, and two brothers, Joseph Ryland, head of the San Jose Water Works, and Wright Ryland of Denver, Colorado.

# Firemen Give Thanks For Tribune Effort

Editor TRIBUNE: On behalf of the fire department of San Leandro I take pleasure in thanking The Oakland TRIBUNE for the generous publicity given our recent benefit ball.

BERT ROGERS, Fire Chief, San Leandro.

# Bradford Fraud Case Is Set December 19

Robert B. Bradford, University of California graduate, student and broker, was arraigned yesterday at the Superior court by Judge Lincoln S. Church to appear, charged with having defrauded Cavalier & Co., stock brokers, of \$10,000 worth of Liberty bonds by means of a fraudulent check. Bradford was arraigned under the alias A. A. Sunder, the name he is alleged to have signed to the check, previously to the arrest of Bradford, 1921. The check was drawn on the Oakland Bank of Savings.

Bradford pleaded "not guilty." His case was set for trial on December 19.

# MURDER CASE ARGUED

Arguments in the trial of Lew Kim, Sam Low and Chin Fong, charged with the murder of Walter Taggart, during a recent long war in this city, began before a jury in Superior Judge George Samuels' court today. Deputy District Attorney W. A. Snook opened for the state, followed by W. H. L. Hines of counsel for the defense. It is expected that the case will be in the hands of the jury before night.

# YOU PAY LESS

Don't try to save money buying cheap or big-can Baking Powders. You can't do it. You'll throw out more in spoiled bakings than you save on price of the powder. And don't think that old style high priced powders are best because they cost most. They are not.

# CALUMET BAKING POWDER

has proved in millions of bake-day tests that it is the best baking powder ever made—that's why it is the biggest selling baking powder in the world today. No other baking powder is so tender, wholesome baking. No baking powder of any where near the same quality is sold at such a low price.

You use less of Calumet—because it is the highest grade baking powder. One teaspoonful is equal to two teaspoonfuls of many other brands.

And there is no "luck" about it when you use Calumet. You can be sure. It is the most economical of all. Millions of housewives use it—and so do leading domestic science teachers and cooking experts.

You save when you buy it. You save when you use it.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

# HIGHEST QUALITY GET BEST RESULTS WITHOUT LOSS

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

# ALMANAC

by Ad. Schuster

TUESDAY, DECEMBER 6.

arer and nearer comes Christmas, and longer and longer the /e refuse to answer any questions which start, "What will o Cousin Artha?" The child's bank is heavy and waiting. In the woods the white lilac is beginning to bud. The shrub out of the wet bushes like toy airplanes. It is St. is Day today. George G. Vest, statesman and member of orate congress was born in 1830, and John S. Mosby, whose erate raiders were said to have been as effective as 30,000 was born in 1833. E. H. Solheim, actor, was born in 1859.

**CHIEF AT LARGE.**

THINGS WE HAVE TO TEND TO.

don't ram: U. C. freshman, and rolled in Prof. Hofman's class. The other day oled the pumpkin, but rsisted in calling it a . Will you please com- t him? I don't think ht—A. E. '25.

these days, so largely over to pleasure of the I wonder how many re- sent the delight that the sense of smell, of erness of rain-wet sage, turned earth, the unfor- odor of stolen grapes, returne that lies at the of the apple barrel as in over it to select a pin-

pin. Do suddenly perceived odors bring recollections to you? The tang of wood smoke recalls a tiny cabin in deep woods to meet the pungent odor of the friction of brake-shoes on our wheels brings a picture of high mountains and sharp curves bringing new and pleas- ing vistas, while crowded street cars, reloaded me of Mountain ranges and a sheep camp under a sudden shower.

—MAY FEIN.

Indeed, they do, May Fein. When we drift on the mist the odor of roasting coffee there comes to mind something as unpoetic as the section west of the loop in Chicago. We like the smell of hot tar smok- ing above the wood fires of the paving gangs and we de- test, above all others, the smell of the soft banana pooled in the railroad coach. Do you know what it is to have a manzanita in full bloom under your window and does the city rag drawn from the barrel of a shotgun bring a picture of ducks flying low over a marsh? There are so many of these whiffs that do not come to mind or nose right now—perhaps the Almanac- ians will add to the list.

LOVE LETTERS OF A DIVORCEE.

My Darling Wife:  
On this, your birthday, I salute you. It promises to be a lonesome day for me, but not as lonesome as formerly. I suppose Oogie Hanson is giving you a blow-out. It would be like the cad to thus impress upon you that you are 42. I am sending you a hand- mirror as a gift. Nothing much; just a reminder. Yours lovingly, —ARCHIE.

Associated Oil Company Scrip Books are obtainable in denominations of 25, 50 and 100 each with discounts that effect appreciable savings on Gasoline, Motor Oils including Cyclo and Grease. To make this gift in keeping with the Christmas Season each Book is enclosed in a suitably inscribed envelope.

## An unusual gift your husband or friend will appreciate.

### A Christmas Suggestion.

**G**AIN comes the perplexing problem, "what shall I give my brother, husband or man friend for a Christmas Gift?" It may be, that he has a motor car. Here then is a suggestion for an ideal Christmas Gift that will be greatly appreciated, because of its practical value.

Men are peculiar. They do not always express their true thoughts about the gifts their woman friends or wives or sisters make. They do appreciate your thoughtfulness—but give them something that is a MAN'S gift—and see how their true feelings respond!

We suggest that you give them Associated Oil Company Scrip Books. Not only will they save money on their gasoline, oil and grease, but

they will effect the savings that result from using the highest quality products in their engines. And their engines will give better performance. They will thus have constant pleasant reminders of the thoughtfulness of the donor of such an unusual and practical Christmas present.

The coupons in Associated Oil Company Scrip Books are redeemable at all dealers who sell our products and at all our service stations for Associated Gasoline, Motor Oils including Cyclo, and Grease.

Send us your check, or money order for an Associated Oil Company Scrip Book or buy one from any of our service stations.

Associated Oil Company, San Francisco

## TEFFT INSANITY CHARGE FOLLOWS PACT OF SUICIDE

Emeryville Deputy Coroner Is  
Held for Hearing After  
Receiving Beating.

C. L. Tefft, Berkeley undertaker and deputy coroner of Emeryville, who was severely beaten yesterday by Lester A. Yancey, husband of the 22-year-old divorcee who shot Tefft in his home at 2301 Grove street on November 3, is today at the Oakland receiving hospital, where he is being detained pending a hearing on his sanity. He was arrested last night following the issuance of a warrant by Police Judge Mortimer Smith charging insanity.

Yancey appeared before Judge Smith following the beating he administered Tefft, when the latter insisted on walking up and down in front of Yancey's cigar store at 2388 Adeline street, and alleged that Tefft and Mrs. Yancey had agreed to a suicide pact, that if one died the other was to die. If Mrs. Yancey killed herself first, he said, Tefft was to take his own life by leaping from the railing of a ferry, or in some other way. Yancey alleged that the shooting of Tefft resulted from the suicide pact.

Yancey declared that since the shooting incident became public Tefft has shunned him and his store nearly every day. Yesterday Tefft approached and addressed him. He said he was afraid he was about to be shot, and therefore struck Tefft, knocking him down.

Tefft and Mrs. Yancey gained notoriety several weeks ago when a belated report of the shooting was made to the police by Dr. A. A. Sanderson, who attended the undertaker. Tefft at first said he had been shot by a highwayman who had attempted to hold him up on the highway in Contra Costa county.

The hearing to determine Tefft's sanity will be held at the receiving hospital tomorrow.

### Performing Dolls to Aid in Raising Fund

Tony Sarg, celebrated cartoonist and illustrator, will come to Oakland on December 21 with his company of Marionettes, or performing dolls. The company of "mechanical" people will perform at the Auditorium theater. Two performances will be given under the direction of the Central California Wellesley club to raise funds with which to help rebuild the Wellesley College in Massachusetts, which was destroyed by fire in 1918.

Sarg's Marionettes have been brought to the highest point of perfection. They act upon a miniature stage, are costumed as real actors, dance, sing, jest and otherwise perform as required. The members of the company play instruments, sing and speak their lines just like real actors.

Thackeray's fairy story, "Rose and the Ring," will be presented in the afternoon and "Rip Van Winkle" will be shown in the evening.

Cavendish, the English chemist, had a back stair built in his house to avoid seeing any of his women servants.

## COP'S ANKLE IS HURT CHASING MYTHICAL THIEF

A burglar who proved to be a myth was the cause of Policeman Darwin C. Whipple spraining his ankle. Lieutenant W. F. Woods of the Eastern police station received a telephone call from Mrs. A. Walker, 3742 Loma Vista avenue. She told the officer that there was a burglar in her house and that the neighbors had surrounded the house.

A squad of men under the command of Lieutenant Woods responded to the call. As the machine drove up in front of the house Policeman Whipple, who craved action, jumped off the machine as it was moving. He stepped on a small stone and sprained his ankle.

The policeman searched the

## Jealous Wife Takes Poison; to Recover

Despondent because of attentions said to have been lavished by her husband on another woman and in a fit of alleged jealousy, Mrs. E. E. Erker attempted to commit suicide at her home, 622 Twentieth street, this morning, by swallowing a poison. She told Police Inspectors Joe Enright and William Haldeman that her husband was giving a waitress named "Hazel" too much attention. The husband is employed as a dishwasher in the Stag restaurant. She was treated at the Emergency hospital and later removed to her home. Her condition is not serious.

Benjamin Franklin was a vegetarian until he discovered that fish ate one another; then he ate them.

## VETERANS HIKE HERE FROM N. Y. SINCE AUG., 1920

On the road since August, 1920, S. Tracy Green and Joseph Feishin of New York, former service men, have arrived in California after hiking their way across the continent. They have walked the entire distance, spurning rides on automobiles or trains.

After visiting the principal cities in California, Green and Feishin will begin on a return trip to the East. They say they are collecting material for a book which they will write after completing their travels.

Among the crews of exploring vessels of the Elizabethan age were sons of the best families of England.

## Bus Safety Rules Suggested by Wood

SACRAMENTO, Dec. 6.—Calling attention to the recent disaster at Red Bluff, in which the lives of 14 school children were lost, Will C. Wood, superintendent of public instruction, today issued a circular letter to school officials of California recommending that stringent rules be adopted to prevent a recurrence of such tragedies.

### AUTO RUNS DOWN MAN.

SAN FRANCISCO, Dec. 6.—James Daigh, a warehouse man for the Standard Oil company, living at 545 O'Farrell street, was struck by an automobile at Market and Taylor street early today. He received a lacerated scalp and injuries to hip and nose. The machine was driven by G. Wombacher of 112 Seventh street, who took him to Central Emergency hospital.

## ALAMEDA COUNTY DAY

**Tomorrow**  
Wednesday  
**Dec. 7**  
at the  
**CALIFORNIA  
INDUSTRIES  
EXPOSITION**  
*- don't miss the Fun*

**V**ISIT the interesting Exposition of California Industries staged in San Francisco Auditorium. In many ways it brings to mind the famous Exposition days of 1915. Visit it on Alameda County's special day—tomorrow, Wednesday, December 7.

Exhibits have been installed by the leaders of California's various industries at considerable expense. These exhibits are interesting, educational and entertaining. You'll like them!

## Especially, we invite you to see the LAUNDRYOWNERS' EXHIBIT

—a modern laundry in full operation before your very eyes. Every process that laundries use in the laundering of shirts, collars, delicate silk garments, hosiery, etc., is shown. Everyone should see this exhibit. The crowds standing around it from 2 p. m. until late at night testify to its popularity.

Go yourself. Remember, tomorrow: December 7—Alameda County Day! Tell others about it. Take the children along. Don't miss this educational opportunity! Admission: Adults, 25c; Children, 15c.

### USE THE MODERN

## GAS FURNACE FOR QUICK—ECONOMICAL HEAT

### Warm, Fresh Air

Except for the warmth, added as it passes through the furnace tubes, the air sent out by the Gas Furnace is as clean and pure as when it went in.

### Good, Fresh Air

Is drawn into the furnace, warmed thoroughly and sent out as pure as when it went in.

### Gas Products

After the burned gas has given all its heat to the fresh air, all the fumes pass out of the house through their own vent.

### One Air Mixer

The Modern Gas Furnace is simple in construction. There is a single specially designed cast burner with only one adjustable air-mixer.

### Multivane Fan

For large buildings, where a battery of Modern Gas Furnaces are used, there is provided a Multivane Fan, which greatly increases the efficiency of larger installations by propelling the warmed, fresh air to wherever it is needed.

### Material

The finest possible materials go into the Modern Gas Furnace, for example the Rust-Resisting Iron in its side-walls.

### Cast Combustion Chamber

A specially designed cast-iron combustion chamber prevents intense heat from touching other metal, giving longer life to the furnace.

### Cool Jacket

The Gas Furnace conserves heat. Cold air circulates between outside casing of furnace and an intermediate jacket. This exclusive feature eliminates basement heat losses.

### Three Heats

The Gas Furnace gives three heats—Low, Medium and Full, as needed. No more gas is burned than necessary.

### A Flexible Furnace

There is a Gas Furnace to fit every building. The Unit for small homes, the Special for larger homes and the battery of Units for larger buildings of every description.

For Installation Data

See Local Gas Appliance Dealers or New Business Department

## NEW SALES PLAN ADDS PROSPECTS FOR RAISIN MEN

Growers Employ Own Agents Instead of Distributing Goods by Brokers.

FRESNO, Dec. 6.—Prospects for the raisin crop are reported brighter than ever before by Sales Manager Brady of the Sun Raisin Association, who has returned from an extended business trip throughout the United States in which he visited 200 raisin growers.

"Our new sales system is just beginning to prove its value," says Brady, "and it is a very important one. It is a system which places the salesmen in direct contact with the growers, and it is a system which is being adopted by a large number of growers. This is a very important step in the development of the raisin industry, and it is a step which will result in a more efficient and profitable industry."

"The salesmen are now being employed by the growers, and they are being paid on a commission basis. This is a very important change, and it is a change which will result in a more efficient and profitable industry. The salesmen are now being able to sell the raisins at a higher price, and the growers are now being able to receive a higher price for their raisins."

"The salesmen are now being able to sell the raisins at a higher price, and the growers are now being able to receive a higher price for their raisins. This is a very important change, and it is a change which will result in a more efficient and profitable industry. The salesmen are now being able to sell the raisins at a higher price, and the growers are now being able to receive a higher price for their raisins."

Black	1.00

## BUSINESS FINANCE

The feature of the financial and business situation today was the rise of the Swiss franc to par for the first time in two years. This, following the steady strengthening of the French franc for some days to .749 cents, would indicate that the financial conditions of both countries are improving. The French improvement is a general surprise, considering the waning prospects of further immediate repatriation collection and the talk of a moratorium for Germany.

For two weeks the English pound has also been growing stronger. It got above the \$4 mark last week for a day or two, fell off to \$3.99, again hopped over \$4 by a hair and has been steadily climbing until it is quoted at \$4.08 in New York today.

The Italian lire advanced from .433 to .440 cents.

Not to be outdone by the firmer tone of the finances of her war enemies, Germany had the satisfaction of seeing the mark quoted at 1 1/2 cent, or 200 to the dollar, the highest it has been for several weeks.

**SANTA ROSA LIGHT CO.**  
WOULD ISSUE NEW STOCK.  
Associating that it had had for capital expenditures \$122,625.21, the company has decided to issue new stock. The company has decided to issue new stock. The company has decided to issue new stock. The company has decided to issue new stock.

# PACIFIC FOODS AND PACKERS'S COMMERCE

## SUGAR DECLINES 30 CTS. PER 100; EGGS RISE 5 CTS.

### Onion Shortage Indicated in Cold Storage Stocks Being Drawn On.

A drop of 30 cents a hundred pounds for refined sugar was announced today by the California and Hawaiian Sugar company. The new basis of trade from refiner to jobber is 54.44 cents formerly 55.74. This is the first change in the local sugar market in several weeks.

Cold storage onions began to be drawn on today, two months earlier than last year. The shortage of cold storage onions is now becoming a real thing. Stockholders report practically all local crop contracted for in October, and the California crop is being drawn on. Consequently, according to the market men, even with the Australian imports, there will not be enough to go round. Prices are firmer at all river points the last few days.

Eggs today jumped today after yesterday for some days. Ranch eggs were selling at 55 cents a dozen, against 52 cents last Friday. The price of weather has slightly decreased the day to day market. Imports are not in as special favor just now in the local market.

Butter, too, was up. Prime extra going at 17 cents a pound. Arrivals today included two cars of bananas and two of apples. Apples are expected to be in the market next few days because of the approach of the Christmas season. Waterbury's packing house quotations were up slightly, but owing to large contract supplies held locally the prices here were unchanged.

H. M. Miller, formerly chemist for the National Farmers' Association, has been invited to a meeting for peeling tomatoes, and he recently demonstrated it at the California Fruit Canners' Association in California. Miller claims that by its use the cost of canning tomatoes will be reduced 50 per cent, and that instead of 30 per cent of the fruit being available for "solid pack" he will be able to produce 100 per cent of the same. He is putting down the waste from 40 to 10 per cent and running a five cent a day capacity of twenty-five tons a day.

## OAKLAND PRODUCE

**FRUIT.** Golden, new crop, \$6.50 per case; 100 lb. box, \$25.00. Honey—\$5.00 per case. Oranges—\$1.50 per box. Apples—\$1.50 per box. Grapes—\$1.50 per box. Pears—\$1.50 per box. Peaches—\$1.50 per box. Plums—\$1.50 per box. Cherries—\$1.50 per box. Nuts—\$1.50 per box. Dried fruit—\$1.50 per box. Spices—\$1.50 per box. Herbs—\$1.50 per box. Mushrooms—\$1.50 per box. Truffles—\$1.50 per box. Seafood—\$1.50 per box. Game—\$1.50 per box. Poultry—\$1.50 per box. Eggs—\$1.50 per box. Butter—\$1.50 per box. Cheese—\$1.50 per box. Canned goods—\$1.50 per box. Dry goods—\$1.50 per box. Miscellaneous—\$1.50 per box.

## POULTRY AND GAME

## Land Scrip to Be Sold at Auction By State Jan. 3

A PUBLIC auction sale of state scrip will be held by Surveyor-General W. S. Kingsbury, at the state capital, Sacramento, Tuesday, January 3, at 10 a. m.

Scrip can be purchased only by citizens of the United States who are residents of the state of California, and can be located on any vacant non-mineral unsurveyed United States government land in California.

Household and desert land entries can be relinquished by the state through the surveyor-general's office and acquire title to the land by the purchase of scrip, provided the land is withdrawn by the federal government for public purposes prior to the date the land is scripped. The applicant need not live on or improve the land.

State scrip is not transferable. Scrip is sold in forty-acre lots for cash, personal checks received, but no purchaser can buy more than 640 acres, and the surrender of the scrip is payment for an equal acreage of government land.

At the last auction sale of state scrip the price received averaged \$6.82 per acre.

All money received from the sale of state scrip goes to the support of the public schools of the state. Address the State Surveyor-General, Sacramento.

## S. F. PRODUCE

**Vegetables.** ARTICHOKES—Per case, \$10.00. Asparagus—Per case, \$10.00. Beans—Per case, \$10.00. Broccoli—Per case, \$10.00. Cabbage—Per case, \$10.00. Carrots—Per case, \$10.00.
